What we do

Sight For All delivers eye health care projects free of charge to our partner countries and communities, with the ultimate aim of reducing vision impairment and blindness.

WE FOCUS ON FILLING THE GAPS IN EYE HEALTH THROUGH:

Collaborative Research
Identifying and prioritising areas of need for developing countries.

Infrastructure Support
Establishing or upgrading equipment and facilities at training and regional eye centres.

Sustainable Education
Coordinating educational programs in developing countries and providing opportunities where doctors travel to Australia for educational courses or intensive, year-long training fellowships.

Eye Health Awareness
Informing communities of the importance of eye health and the ophthalmic services that are available.

Our Values

Collaboration
Encouraging participation of all stakeholders.

Sustainability
Fostering self-reliance through comprehensive evidence-based projects.

Respect
Promoting human rights in all dealings.
Without doubt, the highlight of the past year was to secure accreditation with the Australian Government’s Department of Foreign Affairs & Trade. We founded Sight For All in 2008, with one of our primary goals being to reach this critical milestone. It’s been a long time coming, and an enormous body of work; however, it has resulted in the lifting of our organisation to a whole new level, from financial, risk and project management through to governance and marketing. It was a joyous moment, with a few tears shed and a collective sigh of relief when we received the positive verdict - we could now get on with our core business of restoring sight, saving lives and alleviating poverty. We immediately and enthusiastically began to prepare for our first Australian NGO Cooperation Program funded projects and look forward to launching them in July, and sharing the results with you in 2018.

I’d like to take this opportunity to thank all those involved, but in particular, our Executive Officer Judy Bickmore and her crack staff team of Cesar Carillo, Leanne Harms and Beth Rackham. The Board has been phenomenally helpful and supportive throughout the year, and the incredible efforts of our various voluntary committees have been instrumental in our success. Of course, our broad range of donors and supporters, and especially our Vision 1000 Members, have given us the fuel to run this well-oiled machine that is Sight For All.

Despite the intense preparation for accreditation, we’ve continued to run our sight-saving projects at a high level. With the appointment of Ophthalmic Officers in several of our partner countries, we will be having an even bigger impact on blindness in the years to come. The backbone of Sight For All is undoubtedly our Visionaries, now amounting to more than 120 specialists from across Australia and New Zealand, who so generously give of their time to train our colleagues throughout Asia. I applaud their generosity of spirit, their dedication and the sharing of their bountiful expertise.

There are literally hundreds of eye diseases. Many are blinding and some are deadly. Our colleagues in Asia are embracing our efforts to comprehensively and sustainably assist them in the fight against all forms of eye disease. It’s a monumental battle; however, we also cherish their commitment to creating a world where everyone can see. It’s heart-warming to know that our combined efforts are currently impacting on the lives of roughly half a million people each year. We look forward to celebrating more of our achievements with you as we head toward 2020. Thank you, thank you to all, from the bottom of my heart.

Best wishes,

Dr James Muecke AM
The past year has been one of many highlights for Sight For All and achieving accreditation with the Department of Foreign Affairs and Trade (DFAT) was certainly one of the greatest.

For a number of years, we have been developing and consolidating our work activities to ensure we have robust strategies, policies and practices in place to apply for and be successful in achieving DFAT accreditation. Following a successful organisational review in December 2016 and formal approval in March 2017, we are proud to say that Sight For All is now an accredited agency with the Department of Foreign Affairs and Trade. This accreditation provides us with Australian Government funding and in addition, provides us with credibility and recognition as a reputable international non-government organisation. The achievement of accreditation was a culmination of many years of hard work and dedication by our Board and staff team and I offer my sincere thanks for a tremendous effort by everyone involved. Through our accreditation we are now able to coordinate activities using funds from the Australian NGO Cooperation Program (ANCP). These funds have allowed us to develop two sustainable projects in Myanmar that will be undertaken in the 2017-2018 Financial Year.

I was honoured to be elected as a member of the ACFID Code of Conduct Committee in November 2016. Sight For All is a Member of ACFID and highly values the incredible work that they do in setting the standards for international development by Australian NGOs. The new Code of Conduct released in mid-2017 is a reflection of ACFID’s leadership and I am proud to be a member of the Code of Conduct Committee and in particular, being the voice of small NGOs.

Another of the many highlights of this past year was the appointment of our Youth Ambassador, Chris Pennington. The position of Youth Ambassador is new for Sight For All and enables a young person under the age of 30 to be appointed for a two-year term to develop their own mission while also raising funds for Sight For All’s childhood blindness initiatives. As our first Youth Ambassador, Chris is an inspiring young man who in mid-2018 will embark on an 8,000km journey from the most western tip of Australia via the coastline to the most eastern tip of Australia – all on a one gear bike! We are excited to support Chris on this great adventure.

Events are such a fun and important part of the Sight For All calendar each year, coordinated by our inspiring Volunteer Events Director Mena Muecke and the dedicated Events Committee. In August 2016 we held our third The Very Slow Long Lunch at a new venue, the Old Ram Shed at the Adelaide Showgrounds. Some events leave a lasting memory and this one has certainly done that for me and for many of our guests in attendance. With close to three hundred people, sitting at long tables enjoying delicious food and wine, followed by G&Ts at the Hains and Co Bar created just for us, it really was a special day. In addition, the 2016 The Very Slow Long Lunch raised over $95,000 which was used for projects including the Cambodia Contact Lens Training Project and the Lao Paediatric Ophthalmology Fellowship.
The Very Slow Long Lunch was followed by our first ever Golf Day, Golf For Sight in late October. We were fortunate to have perfect spring weather for a morning of golf and our thanks go to all of those involved in sponsoring and coordinating this new Sight For All event that now has a permanent position on the Sight For All calendar.

We are most grateful to those who coordinated events for us throughout the year. Our thanks to George and Alison McKenzie for holding an Open Garden in October 2016, BAPēA Art School for hosting a wonderful Music and Art Concert, and Oscar Wylee for holding a ‘Dinner in the Dark’ in Sydney for World Sight Day 2016. These events assist us in raising funds for projects and in raising the profile of Sight For All amongst a variety of networks. We also thank Atkins Technicolour and Optos, a Nikon Company, for supporting this year’s One Day For Sight Photographic Challenge. Finalists from One Day For Sight had their photographs on display at both the Adelaide Festival Centre and Adelaide Airport for a number of weeks.

Trusts and Foundations assist us greatly in funding specific projects and activities. The Wood Foundation, Lang Foundation, Geok Hua Wong Charitable Trust and Thyne Reid Foundation have all supported us immensely over the past 12 months and we thank them sincerely for their significant contributions.

We welcomed some of our international friends to Australia at different times throughout the year. From August to September 2016 Dr Phayvanh, our Lao Paediatric Ophthalmology Fellow was in Melbourne for a three-month enhanced observership with Professor James Elder. Dr Phayvanh was given a truly remarkable opportunity to learn with Prof Elder at the Royal Children’s Hospital and experience life in Australia by residing with Prof Elder and his wife Kate. In September 2016 Dr Aye Moe Htet from Myanmar embarked on her 12-month Anterior Segment Fellowship in Adelaide with Dr Mark Chehade and in March 2017 we welcomed A/Prof Than Htun Aung and Ms Thinn Thinn Swe to Adelaide for a 4-week Low Vision Course coordinated in conjunction with the Royal Society for the Blind and the South Australian School for Vision Impaired. We are grateful to all those organisations and individuals who have gone above and beyond to support the teaching of these Fellows in Australia over the past year.

We continue to be grateful to over 120 Visionaries, the wonderful ophthalmic volunteers who give their time and expertise throughout the year to enable our sustainable teaching model in-country to be so effective. Behind the scenes are our dedicated staff team, passionate Board, and our committed volunteers who make Sight For All the inspiring and impactful organisation that we are. I thank the Board of Directors, led by our Chairman Dr James Muecke, for their vision and leadership; members of our voluntary committees for their dedication and our small but very efficient staff team of Cesar Carrillo, Leanne Harms and Beth Rackham for their incredible efforts over the past 12 months. Being the Executive Officer of Sight For All continues to be a tremendous privilege and I look forward to many wonderful highlights in the 2017-2018 year.

Kind regards,

Judy Bickmore
In 2016, Sight For All introduced new voluntary positions within our partner countries, Ophthalmic Country Officers.

Our Ophthalmic Country Officers in Cambodia, Myanmar, Nepal, Sri Lanka and Vietnam are all Sight For All trained fellows that were identified and selected in conjunction with the Directors of our partner hospitals.

The role of an Ophthalmic Country Officer is to be the key liaison person between Sight For All in Australia and our colleagues in-country. Ophthalmic Country Officers assist in coordinating teaching trips, facilitate the donation of equipment, liaise with Ministries of Health, and attend important National eye health meetings. The development of the Ophthalmic Country Officer roles has added great value to the Sight For All team and we look forward to the number increasing in other partner countries over the coming years.

CAMBODIA
A/Prof Than Htun Aung, Paediatric Ophthalmologist

MYANMAR
Dr Sok Kheng, Paediatric Ophthalmologist

NEPAL
Dr Gulshan Shrestha, Oculoplastics Specialist

SRI LANKA
Dr Tavisha Uduphille, Paediatric Ophthalmologist

VIETNAM
Dr Tran Khanh Sam, Corneal Specialist
VISIONARIES

Sight For All’s team of Visionaries are an integral part of our sustainable teaching model. We now have over 120 Visionaries consisting of ophthalmologists, optometrists, scientists, ophthalmic nurses and orthoptists as part of our valuable team.

This team of experts donate on average 10,000 hours and over $2 million worth of skills and knowledge each year.

We thank the following Visionaries who have supported Sight For All over the past 12 months:

Dr Brian Ang
Dr Stephen Best
Dr Mark Chehade
Prof John Crompton
Dr Craig Donaldson
Dr Shane Durkin
Prof James Elder
Mr Damon Ezekiel
Dr Glen Gole
Mr Alan Hoare
Dr Tim Isaacs
Dr Graham Lee
Mr Richard Lindsay
Dr Dennis Lowe
Dr Christian Lueck
Dr Stephen McGovern
Dr Todd Maddock
A/Prof Henry Newland
Mr Gavin O’Callaghan
Dr Mark Paine
Dr Simon Phipps
Dr George Pietris
Dr Melissa Shields
Dr Neil Shuey
Dr Sumu Simon
Dr Brian Sloan
Dr Hughie Tsang
Dr James Walker
Dr Andrew White
Dr Megan Wood
BANGLADESH

After much planning, Dr Mahmooda Rahman, from OSB Hospital in Dhaka, will be undertaking a paediatric ophthalmology fellowship at Dr Schroff’s Hospital in India commencing early 2018. We are delighted that this valuable opportunity is available for Dr Rahman.

BHUTAN

Plans have commenced to launch Trek For Sight, a six-day trek through the Himalayas in Bhutan in April 2018. The trek is in support of educational initiatives in Bhutan and includes the purchase of a Heidelberg OCT-FFA device, advanced technology needed for retinal imaging and analysis, that provides critical information for the management of glaucoma and diseases of the retina.

VIETNAM

Dr Mark Chehade undertook the final assessment of the Vietnam Corneal In-Country Fellowship at Vietnam National Institute of Ophthalmology (VNIO) and shared details of the fellowship with VNIO’s Directors. Three Fellows, Drs Sam, Thuy and Phuong were all trained as part of this very successful initiative.

“There is no surprise that the intensive in-country corneal fellowship was immensely helpful to these three capable doctors. However, the real benefit is the flow-on effect to the entire country through the action of these new corneal specialists and the generations of doctors who will now gain further training at their hands.”

- Dr Mark Chehade
CAMBODIA

The Glaucoma In-Country Fellowship for Drs Tharath and Sophal has continued throughout the 2016/2017 year at the Khmer Soviet Friendship Hospital (KSFH) in Phnom Penh. A total of 14 one-week trips have been undertaken overall for what has been a very comprehensive and sustainable teaching program.

To support the teaching, Sight For All has facilitated the provision of and teaching in the use of, vital equipment for KSFH, including a new cyclodiode laser, a new Heidelberg OCT, a Zeiss operating microscope with retinal viewing system and a slit lamp video camera, all to support the Glaucoma and Retinal Fellowships.

I gained a lot of experience on diagnosis and management of glaucoma patients especially the challenging and complicated cases. Because of the training with Sight For All, we are successfully diagnosing and treating more and more Cambodian glaucoma patients. After completing the Glaucoma Fellowship, I will be able to lead the development and implementation of education, training and professional standards for glaucoma in Cambodia.

- Dr Ny Tharath, Glaucoma Fellow

I worked with Dr Tharath and Dr Sophal at the Khmer Soviet Friendship Hospital. Their surgical skills were evident immediately but they were still very receptive to the structured teaching. Proof of how valuable this teaching relationship is to them is that I receive requests every few weeks from them to discuss difficult clinical cases and the best way to proceed. I look forward to seeing them again to see how far they have progressed.

- Dr Andrew White, Visionary Cambodia Glaucoma Fellowship

A total of 13 training visits have continued for the Paediatric Ophthalmology Fellowships for Drs Kheng and Solaephy at KSFH and has enabled the establishment of the first Paediatric Ophthalmology Unit in Phnom Penh.

In October 2016, we commenced the Contact Lens Teaching Program, headed by our Board Director and optometrist Mr Gavin O’Callaghan. The teaching of paediatric ophthalmologist Dr Kheng and optometrist Mr Koeung at KSFH involves training in the fitting of contact lenses to babies and infants with congenital cataracts. After cataract removal, most adults and children receive a permanent artificial intraocular lens. However, for infants under 12 months of age, the use of contact lenses for several years and an eventual lens implant is recommended. Contact lenses are a superior means of refractive correction for aphakics (children without a natural lens) compared to spectacles, because contact lenses provide increased visual field and depth perception, and reduce other distortions such as magnification and curvature effects.

A cyclodiode laser was donated by The Wood Foundation for the treatment of patients with glaucoma at KSFH. With support from the Lang Foundation, One Night For Sight 2016 and Vision 1000 funds, we were able to purchase a Heidelberg OCT to be used for the diagnosis and follow-up of patients with glaucoma and retinal conditions at KSFH.
LAOS

Dr Phayvanh, Sight For All’s Paediatric Ophthalmologist, spent three months at the Royal Children’s Hospital in Melbourne, undertaking an enhanced observership with Professor James Elder. The observership assisted in cementing information and skills gained by Dr Phayvanh throughout her two year in-country fellowship at the National Ophthalmology Centre in Vientiane. Dr Phayvanh’s time in Australia concluded with attending the RANZCO Congress in November. A huge thanks must go to our wonderful Visionary Prof Elder and his wife Kate, for their tremendous support, including hosting Dr Phayvanh at their home for the three-month period.

“After I had undertaken the Paediatric Ophthalmology Fellowship, I learnt and know more about how to check and treat eye diseases and eye disorders in children. During three months I have attended the training at hospital in Melbourne with Dr James Elder and his team. It was a great time in my life. It is not only Dr James Elder who always helped and supported me, but also everyone in the team who helped teach me different treatment and surgical techniques for different kinds of eye diseases. Also, it makes me know how to be a very good team worker. I would like to thank Sight For All for giving me a great chance, many thanks to all professors, nurses for giving me plenty of knowledge. I will bring it to use and develop the treatment in my country, and I am confident this will be beneficial and helpful to people in my country. Lastly, thank you so much to Professor Dr James Elder and his family for warmly welcoming me and taking care of me while I stayed with them in Melbourne. I appreciated everything they have done for me.”

- Dr Phayvanh, Paediatric Ophthalmology Fellow

“The opportunity to undertake an observership underlies the fact that learning is lifelong. During Dr Phayvanh’s observership in Melbourne from August to November 2016, she was able to observe the workings of the Department of Ophthalmology at the Royal Children’s Hospital and participate in its academic activities. Translating these learnings to the care of her patients in Laos was Dr Phayvanh’s challenge. In January 2017, it was evident that in both the care of premature infants in Vientiane and in surgical procedures at Mahosot Hospital there had been real change. Ongoing support with resources and Visionary visits to Laos is vital to maintain and improve the provision of paediatric eye care throughout Laos.”

- Professor James Elder, Visionary Lao Paediatric Ophthalmology Fellowship

Funds raised through the hugely successful The Very Slow Long Lunch, held in August 2016, enabled the purchase of two Ellex retinal lasers to be used in the regional eye centres of Savanakhet and Champasak in southern Lao. Adelaide-based Visionary, Dr Jim Runciman, travelled to these centres in early December 2016 to set up the lasers and provide training to the local ophthalmologists in the management of retinal vascular diseases.
In October 2016, we commenced our first In-country Fellowship in Myanmar, in the subspecialty field of Neuro-Ophthalmology. This involved training three fellows, Drs Yin New Win, Aye Kyaw Maung and Mon Mon Yi, at the Yangon Eye Hospital over a 12-month period.

Professor John Crompton is the lead Visionary for this Fellowship, providing assistance to the Sight For All team in selecting the Visionaries and developing the roster and curriculum. The Fellowship will continue throughout 2017, with the final examination being conducted in October 2017. Our sincere thanks to Prof Tin Win Director of the Yangon Eye Hospital, our Visionaries and the Geok Hua Wong Charitable Trust, without whom this Fellowship would not be possible.

In a country with a population of over 80 million, whilst there are large numbers of well-trained generalist eye surgeons, there are no trained Neuro-Ophthalmologists. Hence in 2016, with the assistance of senior staff of the Yangon Eye Hospital, three Fellows were selected, one each from Yangon Eye Hospital, Mandalay Eye & Ear Hospital and University of Medicine 2, Yangon.

A detailed syllabus was drawn up by Professor John Crompton, and 11 other consultant Neuro-Ophthalmologists from Australia and New Zealand were recruited to teach their preselected topics for one week per month. Three of these consultants were Neurologists and the rest were Ophthalmologists.

Teaching included methods of history taking and detailed examination techniques, plus arriving at a differential diagnosis, focussed investigations and final diagnoses and management plans.

Each morning, referred patients were 'worked up' and discussed and then the afternoons were busy with tutorials and formal lectures.

At the commencement of the course, an entrance exam was held to ascertain the knowledge level. At the end of each visit, a searching test was composed on the relevant topics to be held at the next visit, giving time for individual study and revision. Prof Crompton returned to Yangon in October 2017 to run the Final Exit Examination. The successful Fellows were each provided with a 'Certificate of Fellowship Completion'.

The advantages of 'in-house' fellowship training is that the clinical skills of the Fellows are not lost to the host country for a year - they are taught on their own patients using their own equipment, investigations and treatment methods.

It also means that the Fellows do not have to get 'acclimatised' to our way of life and also that there is much less in the way of language and cultural problems.

- Prof John Crompton,
  Lead Visionary, Myanmar Neuro-Ophthalmology Fellowship
In September 2016 we welcomed Dr Aye Moe Htet to Adelaide to commence her 12-month Anterior Segment Fellowship at the Royal Adelaide Hospital. Under the guidance of Dr Mark Chehade, Dr Anchal and Dr Nadia Whittles, Dr Htet has been trained in the diagnosis and treatment of complex ocular surface diseases such as corneal disorders. Dr Htet has taken advantage of many opportunities during her time in Australia, including attending the RANZCO Congress in November 2016 and planning a four-week observership at the Vision Eye Institute in Sydney with Professor Gerard Sutton.

“My Anterior Segment Fellowship at RAH gave me confidence in managing corneal and anterior segment problems in my home country. I am really glad because my knowledge and skills can contribute to reducing corneal blindness in Myanmar. I am very appreciative of this great help from Sight For All.”
- Dr Aye Moe Htet

Prof Henry Newland, Professor David Lightman and Dr George Pietris spent a week at Yangon Eye Hospital (YEH) in December 2016 as part of the ongoing support to the hospital’s Vitreo-retinal Unit. During this visit it was decided that the current vitreo-retinal surgeons at YEH, trained by Sight For All, are ready to continue training their own fellows in Myanmar.

“I am Dr Yin Nwe Win, one of the Neuro-Ophthalmology fellows from Myanmar, supported by Sight For All. Thanks Sight For All and all my mentors involved in this program. I hope from my fellowship I can do in every possible way to educate the importance of taking care of the eyes and timely and proper treatment. Gaining new knowledge and experience which enables me to share and give a helping hand to those who need.”
- Dr Yin Nwe Win, Neuro-Ophthalmology Fellow

“Sight For All conducted 12 months neuro-ophthalmology in country fellowship program in Yangon Eye Hospital from July 2016 to October 2017. Three Myanmar ophthalmologists from various medical universities completed successfully. I found this reverse fellowship program is very useful for Myanmar.”
- Professor Tin Win, Director Yangon Eye Hospital
In March 2017, A/Prof Than Htun Aung, Paediatric Ophthalmologist trained by Sight For All in 2010, and Ms Thinn Thinn Swe, optometrist, both from Yangon Eye Hospital, spent four weeks in Adelaide undertaking a Low Vision Training Course. Together with our partners, Royal Society for the Blind (RSB) and the South Australian School for Vision Impaired, A/Prof Aung and Ms Swe have learnt how to assist people with poor vision when they return home to Myanmar. The course included training with the RSB’s experienced team, including their guide dog assistance services, and visiting various schools for vision impaired across Adelaide, to see first-hand how children are benefiting from specialised learning tools and equipment. To quote A/Prof Aung, "RSB Guide & Assistance Dog Service is an amazing place providing excellent support for people with very poor vision to live life with confidence!"

SRI LANKA

With support from the Australian Government’s Direct Aid Program, Sight For All was able to purchase a portable autorefractor-keratometer along with an iCare tonometer and infant gonioscopy lens for the Paediatric Eye Unit at the Sirimavo Bamdaranaike Specialised Children’s Hospital in Kandy that was established by Sight For All in 2011. This equipment will support the diagnosis and treatment of children with diverse ophthalmic conditions including congenital glaucoma.

Dr James Muecke undertook training in the management of retinoblastoma in February 2017.
THE VIENTIANE EYE SURVEY

The Vientiane Eye Survey is a large-scale population-based survey of the prevalence and causes of visual impairment in the capital city of the Lao People’s Democratic Republic (Lao PDR).

Lao PDR is the most rapidly urbanising country in Asia. Our clinical and research team has a long-standing relationship with the eye care health workers in this country and we have recently conducted a pilot study of the prevalence and causes of visual impairment in the capital city, Vientiane.

In this pilot study, we noted signs of diabetic retinopathy (DR) in approximately 5% of the random sample. No participants had been previously diagnosed with diabetes. These data suggest an emerging, previously unrecognised, major public health concern in this population. Currently, there are no robust ophthalmic epidemiological data from this region. Accurate data is urgently needed to plan and allocate health care resources.

The study is continuing in December 2017, and is expected to have a major clinical impact on health care delivery. The study will be the first to capture robust data on the prevalence and severity of DR in an urbanised population of Lao PDR. We expect to find a significant burden of DR already established in this population. In addition, we expect to be the first to report age-related macular degeneration in this population. This will motivate screening programs and inform policy decision making. In collaboration with our Lao ophthalmic colleagues, we aim to bring modern DR awareness and treatment programs to this country.
**NEW GLOBAL VISUAL IMPAIRMENT DATA**

Vice Chairman of Sight for All, Professor Robert Casson is a Collaborator on the World Health Organization’s Vision Loss Expert Group, which recently performed a meta-analysis of the global visual impairment data. Global and regional prevalence estimates for blindness and vision impairment are important for the development of public health policies. This research aimed to provide global estimates, trends, and projections of global blindness and vision impairment.

We did a systematic review and meta-analysis of population-based datasets relevant to global vision impairment and blindness that were published between 1980 and 2015.

**FINDINGS:** Globally, of the 7.33 billion people alive in 2015, an estimated 36.0 million were blind, 216.6 million people had moderate to severe visual impairment and 188.5 million (80% UI 64.5-350.2) had mild visual impairment. The estimated number of blind people increased by 17.6%, from 30.6 million in 1990 to 36.0 million in 2015. This change was attributable to three factors, namely an increase because of population growth (38.4%), population ageing after accounting for population growth (34.6%), and reduction in age-specific prevalence (-36.7%).

**INTERPRETATION:** There is an ongoing reduction in the age-standardised prevalence of blindness and visual impairment, yet the growth and ageing of the world’s population is causing a substantial increase in number of people affected. These observations highlight the need to scale up vision impairment alleviation efforts at all levels.
As part of our organisation’s commitment to collaborative research in the fight against blindness in our partner countries, the Meiktila Incidence of Visual Impairment Study (MIVIS) was conducted by Sight For All in Myanmar, in February-March 2017. This 12 year follow-up study revisited the participants of the original Meiktila Eye Study (MES), carried out by Sight For All in 2005 in the Meiktila District of central Myanmar. The original MES was a highly successful, population-based, cross-sectional ophthalmic survey of inhabitants of rural villages in central Myanmar, which produced the first robust ophthalmic epidemiologic data from this country. The published data clarified the prevalence and determinants of the leading causes of blindness in this region as being cataracts and glaucoma. It has been used by the World Health Organization to update visual impairment prevalence estimates in South East Asia, and resulted in the identification and funding of many programs, subsequently carried out by Sight For All, to address the causes of blindness in this country.

The Meiktila Incidence of Visual Impairment Study (MIVIS) of 2017 revisited the Meiktila District to re-examine the participants of the original Meiktila Eye Study. It was carried out by Sight For All’s volunteer ophthalmologists (Visionaries) Drs. Stephen McGovern and Megan Wood, and ophthalmic photographer Alan Hoare, in collaboration with Sight For All-trained paediatric ophthalmologist, A/Prof. Than Htun Aung and colleagues from Yangon Eye Hospital. Over one thousand original MES participants were re-examined over a four-week period and the data collected is currently being evaluated by Sight For All’s Principal Investigator, Prof. Robert Casson before publication. It is hoped that this follow-up study will provide landmark data about the incidence of progression to visual impairment and progression rates of cataract and angle-closure glaucoma in this region, and provide invaluable information about the rate of ophthalmic disease burden and the risk factors associated with progression.

Our great appreciation goes to our collaborating colleagues in Myanmar, especially Meiktila Ophthalmologist Dr Maung Maung Myo Win and his staff, A/Prof Than Htun Aung and colleagues from the YEH, Dr Kaythi Myo Myint, Dr Hla Mar La and the Myanmar Ministry of Health for their invaluable assistance in conducting this study.
“Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it’s the only thing that ever has.” - Margaret Mead

This quote encapsulates Sight For All’s Vision 1000 initiative which is based on the premise that collectively a group of people can make a difference to the lives of many others.

At the end of the 2016-2017 Financial Year, Sight For All was fortunate to have 112 Vision 1000, 8 Vision 100 and 1 Vision 10 Members.

The support that Vision 1000 Members have made to Sight For All since the initiative was established in late 2014 is extraordinary. Vision 1000 has provided the organisation with a solid foundation from which our sight-saving programs in partner countries can be coordinated.

In addition to building the foundation, Vision 1000 has also contributed to a significant project each year and in the 2016-2017 Financial Year this was the Cambodia Retina Fellowship. This fellowship involves teaching two Fellows from the Khmer Soviet Friendship Hospital in Phnom Penh, Drs Long and Leng.

In addition to their ongoing support of this initiative, a number of Vision 1000 Members have also coordinated their own events to support the fundraising efforts of Sight For All. This contribution has also been incredibly valuable for our organisation and we are so very grateful.

Vision 100 Membership provides an opportunity to travel to a partner country with Sight For All Chairman Dr James Muecke or another of our Visionaries. This was taken up by Mr John Stokes, a valuable long term supporter of Sight For All and Director of Inservio.

John experienced Sight For All’s work in Cambodia and, reflecting on his experience, said:

“I was lucky enough to be able to observe a retinoblastoma clinic at Angkor Hospital for Children with Sight For All Chairman Dr James Muecke, and one of only two paediatric ophthalmologists in Cambodia, Dr. Phara. Throughout the day, James shared his vast experience in managing retinoblastoma (a deadly form of children’s eye cancer) with Dr. Phara, who greatly appreciated the opportunity. Each case highlighted various barriers to achieving good outcomes, with patient follow-up being the biggest challenge. In some cases, parents were faced with the heartbreaking decision to provide consent to the doctor to remove the second eye in order to save their child’s life.”
THANK YOU to our fantastic Vision 1000 members

The Very Slow Long Lunch
Saturday 13 August was the date of our third The Very Slow Long Lunch, this time at a new Venue, The Old Ram Shed at The Adelaide Showgrounds. Almost 300 guests enjoyed an afternoon of amazing food and wine and great entertainment. Our Ambassador and Channel 7 Presenter Rosanna Mangiarelli was our Master of Ceremonies at the lunch which was made possible through the support of many, including principal sponsor Inservio. In addition to being an incredible event, The Very Slow Long Lunch raised over $95,000 which went towards funding a number of projects including a Contact Lens Training Project in Cambodia and the Lao Paediatric Ophthalmology Fellowship.

ide Connect Product Design Challenge
ide Connect generously donated proceeds from their ‘2016 Building Better Futures For Health: Product Design Challenge Event’ to Sight For All. We were delighted to discover that eye care research and development group Ocureo were the winners of the challenge with their biological patch and low-powered laser for surgical eye wound care.

Open Garden
Vision 1000 Members, George and Alison McKenzie, hosted an Open Garden event to raise funds for Sight For All. Their beautiful, contemporary garden was open to the public over a weekend for a small entry donation. We thank George and Alison for their generosity and applaud them for creating such a stunning garden within only a few years.
One Day For Sight Red Exhibition

On 13 October 2016, World Sight Day, Sight For All’s photographic exhibition One Day For Sight opened to the public. The theme for this year’s event was RED and was made possible through the generosity of our event partners Atkins Photo Lab and Optos, a Nikon Company. The RED exhibition was on show from December until the end of January at the Adelaide Festival Centre and thereafter at the Adelaide Airport for an extended period.

Sydney Dinner In The Dark

Our wonderful supporters Oscar Wylee conducted a Dinner in the Dark at their premises in Sussex Street, Sydney, to raise awareness of Sight For All’s work. In addition to hosting the dinner, Oscar Wylee donated all proceeds from World Sight Day sales to Sight For All. It was an incredible evening and we are so grateful to Oscar Wylee for their tremendous support.

RANZCO Congress

Every two years, Sight For All takes the opportunity to attend the annual Royal Australian and New Zealand College of Ophthalmologists Congress. In 2016 the Congress was held in Melbourne. Executive Officer Judy Bickmore and Ophthalmic Public Health Officer Dr Cesar Carrillo staffed the Sight For All display stand which enabled the opportunity to meet up with Visionaries from across Australia and New Zealand. Sight For All Chairman Dr James Muecke was invited to present the renowned Hollows Lecture at the Congress.

Golf For Sight

Sight For All held its first Golf For Sight event on Friday 28 October, 2016 at Kooyonga Golf Course. Together, our speakers, attendees, sponsors and volunteer organisers created an extremely successful first event and we look forward to building on Golf For Sight in the future!
OUR COMMITTEES

Events Committee
The Sight For All Events Committee is a small specialised committee that works as a team to produce events of the highest quality. The committee raises funds for specific projects while also increasing awareness of Sight For All.

Committee Members throughout the 2016/2017 Financial Year include:

Mena Muecke (Chair)  Felicity Keeves
Judy Bickmore (Secretary)  Jane McMahon
Beth Rackham  Joanne Rosa
Lisa Daw  Dawn Taylor
Melissa Emmett  Sam Taylor
Sarah Hyde  Susie Taylor

Finance Committee
The Sight For All Finance Committee assists the Sight For All Board of Directors in overseeing the organisation’s financial performance, financial policies, capital structure and expenditure.

Finance Committee Members throughout the 2016/2017 Financial Year include:

Phil Jaquillard (Chair)  Judy Bickmore
Leanne Harms (Secretary)  James Muecke

Program Management Committee
The Sight For All Program Management Committee develops and implements program management plans, methods for collecting and recording data and strategies for monitoring and evaluation. It reviews program needs, assessments, reports and recommendations that have been made.

Program Management Committee Members throughout the 2016/2017 Financial Year include:

Bob Casson (Chair)  Judy Bickmore
Cesar Carrillo (Secretary)  James Muecke
Paul Alyward  Zeshi Fisher

Research Committee
The Sight For All Research Committee is a small group of committed professionals who develop and implement research projects to construct an evidence base for, and assess the impact of, Sight For All and its partner countries.

Research Committee Members throughout the 2016/2017 Financial Year include:

Bob Casson (Chair)  James Muecke
Cesar Carrillo (Secretary)  Stephen Nygaard
AMBASSADORS

Sight For All Ambassadors bring a range of experience, skills and expertise in various fields including media, business, politics, governance, arts and sports. The role of an Ambassador is to support, promote and advocate for Sight For All amongst personal networks and the wider community. Skills and characteristics of Ambassadors include enthusiasm for our cause, a connection to Sight For All, a positive outlook, and an active professional and social media presence.

Sight For All is honoured to be supported by over 20 Ambassadors who represent a range of experiences, but share our vision for a world in which there is no blindness.

"My inspiration to participate as a Sight For All Ambassador was due to the amazing enthusiasm of Dr James Muecke and his team. I had supported the organisation in a small way for a number of years and when James visited me and outlined the scope of the program I immediately agreed to be an Ambassador.

The various ophthalmic conditions and diseases managed by Sight For All enables treatments never before addressed in the communities involved. I am particularly taken by the paediatric program which has enormous potential to treat children with sight-threatening conditions which do not occur in our society."

- Richard Grills

"My visit to remote areas of Myanmar with Sight For All showed me first-hand the positive impact of the equipment and training provided by us to local medical facilities."

- Scott Hicks

"The Sight for All team has an unrivalled level of commitment and dedication. They are genuine about their vision to give others the gift of sight and it's that determination and passion that inspires me to support such a unique charity."

- Rosanna Mangiarelli
Sight For All’s Youth Ambassadors are appointed for a two-year term and have the responsibility of developing and coordinating their own mission to raise vital funds for Sight For All’s childhood blindness initiatives in Australia and the developing world.

We are delighted to introduce Chris Pennington, an energetic and passionate outdoor adventurer and commercial photographer from Victoria. Here is what he has to say about his appointment...

“I have always been passionate about adventuring in the great outdoors and enjoying the incredible nature around me. My childhood was an active one, with many family holidays spent on skiing and camping expeditions. In recent years I have nurtured and developed my interests to combine a degree in commercial photography with my love of outdoor adventure. Helping children to restore sight and prevent blindness is a cause I feel strongly about, as without my sight I would have been denied the beauty around me and the career path I have chosen.

As Youth Ambassador for Sight For All, my mission to raise funds for childhood blindness is ‘One Gear, One Long Ride’. ‘One Gear, One Long Ride’ has been a lifelong dream and one which will see me pedal through some of Australia’s most stunning scenery. This not-for-profit bicycle trip will raise vital funds and awareness for Sight For All.

My challenge will be to commence at Shark Bay, the western-most point of Australia, and ride all the way to the eastern tip of the country on a single-speed bike. The long and beautiful 8,000km expedition will take me down the west coast of Australia, across the Nullarbor Plain to Adelaide, along the Great Ocean Road, and up the east coast to the finishing line at Cape Byron Lighthouse. I have calculated that it should take three months to complete throughout the winter months of 2018.

I will be creating a documentary which will follow all the stages of my journey from the planning through to the trip preparations and of course the ride itself. I am very excited about the journey and cannot wait to get underway and share the experience with Sight For All supporters.”
In November 2015, Dr Nick Andrew was appointed to the Board as a Junior Ophthalmologist. In November 2017, Dr Andrew will hand over the position to another Junior Ophthalmologist, Dr Michelle Sun.

In reflecting on his role as a Board Director over the past two years, Dr Andrew had this to say...

"I became involved with Sight For All several years ago when I travelled to Myanmar as a research assistant to collect cataract surgical data following the donation of equipment and training by Sight For All. After commencing ophthalmology training in 2014, I was delighted to be invited to join the Board of Directors.

As the team at Sight For All were so accomplished already, my focus turned to thinking of ways that I could possibly help! I decided that creating novel and sustainable fundraising initiatives would be a useful contribution. This led to One Night For Sight, a ‘dining in the dark’ experience that has since raised over $40,000 and is being rolled out nationally. Another exciting fundraising initiative is also in development and has great potential.

The Directors and staff at Sight For All are a terrific group of people to work with. I always look forward to Board meetings as there is so much enthusiasm amongst the group and there is a real sense of energy in the room. Having Board exposure has been a great experience for me and I have been privileged to be able to learn from everyone’s collective expertise.

The future looks bright for Sight For All and progress is being made at a terrific pace. I would encourage other junior doctors to get involved – as a volunteer, through research, or just attending one of the fundraising events, which are always superb!

Many thanks to the Board of Directors for giving me the opportunity to serve as a Director, and to the whole team at Sight For All for a terrific few years. I look forward to maintaining my connection with Sight For All throughout my career."
James is an eye surgeon based in Adelaide. He is a visiting consultant and senior lecturer at the Royal Adelaide Hospital and Women’s and Children’s Hospital. James has a special interest in blindness prevention, ophthalmic research and education in the developing world. James was a co-founder and Director of the Vision Myanmar Program. He received an ‘Outstanding Service in Prevention of Blindness Award’ by the Asia-Pacific Academy of Ophthalmology in 2011. He was awarded a Member of the Order of Australia in 2012 and received a South Australian Community Achievement Award. In 2015 James was the recipient of the Ernst Young Social Entrepreneur of the Year Award.

Bob is an ophthalmic surgeon-scientist with particular interest in glaucoma and ophthalmic epidemiology in the developing world. He is proud to be a founding Director of Sight For All, where he has the role of Chief Scientific Adviser, with a particular focus on the interface between ophthalmic science and the elimination of preventable blindness in the developing world.

Melissa is the principal consultant for Emmett Marketing. She has a business degree majoring in marketing from the University of South Australia. For over 30 years her career in marketing and brand management included working with brands such as Snappy Tom, SAFCOL, Balfours, Fauldings and SAFE. More recently as a consultant she has worked with SMSF Association, Dressed For Sale, Bedford, Optimistic Kids, Joust and Hands On SA.

Nick is an ophthalmology registrar and is also completing a PhD in ophthalmology, with over 30 peer-reviewed publications. Nick has accompanied Sight For All to Myanmar on two occasions to collect post-intervention cataract surgery data. Outside of ophthalmology, Nick is a keen rower and has represented Australia three times. Nick looks forward to advancing the cause of Sight For All and is delighted to serve as a Board Director.
Michael is a partner at Barry Nilsson Lawyers. He has a Master of Laws majoring in Insurance Law and a Masters of Business Administration. He specialises in professional indemnity, directors and officers, casualty, public liability, product liability, insurance, special risk and business interruption claims. Michael regularly contributes articles to various journals including the Insurance Law Journal. As a Board Member, Michael continues to provide his legal expertise since the formation of Sight For All.

Jody Rowe is a specialist in the resources and energy sector who has a strategic view of the market, its needs and potential opportunities for growth. Jody’s career includes executive roles at BG-QGC (Shell) and Santos on mega projects GLNG and QCLNG. Jody is the founder and Chief Executive Officer of Rowe Advisory. As Chief Executive Officer of Rowe Advisory, Jody is a subject matter expert for global business development, services such as human resources and contracts and procurement, mergers and acquisitions and business and strategic advice. Jody is a Non-Executive Director of Strike Energy, an ASX listed oil and gas exploration company and is a shareholder and Director of companies such as CD Power Pty Ltd, and iPIPE Pty Ltd working with MH Carnegie. Jody is a member of the Safety Leadership Group for the Coal Seam Gas industry Safer Together group. She is a member of the Mining Industry Participation Office Advisory Board for the South Australian Government.

Jonathan Crowston is the Ringland Anderson Professor of Ophthalmology, University of Melbourne, Managing Director of the Centre for Eye Research Australia (CERA) and a practising glaucoma specialist clinician at the Royal Victorian Eye and Ear Hospital. He gained his ophthalmology training at Moorfields Eye Hospital, London and was awarded a PhD for work on ocular wound healing at the Institute of Ophthalmology, University College London [2000]. Jonathan is a director on the CERA Board. He is also a director on the ORIA Board, World Glaucoma Association Board of Governors [2013+], CERA Technologies Pty Ltd and Et Al Research Pty Ltd. Jonathan’s research is currently focused around ageing and neuroprotection of the optic nerve. In particular the role of neuro-recovery and optic nerve vulnerability to injury. He has published over 150 peer-reviewed manuscripts and co-authored three books. Jonathan is the inaugural recipient of 2016 Association for Research in Vision and Ophthalmology Foundation for Eye Research, David L. Epstein Award and the 2016 Peter Watson Medal from the Cambridge Ophthalmology Society.

ACCOUNTABILITY

Australian Council For International Development

Sight For All is proud to be a member of the Australian Council for International Development (ACFID).
As a member of ACFID, Sight For All adheres to the ACFID Code of Conduct.
Sight For All’s financial statement included in this Annual Report is prepared in accordance with the ACFID Code of Conduct.

Complaints

Sight For All is committed to providing quality service to all individuals and organisations with which we are associated and welcomes feedback from volunteers, partner organisations and associated businesses to play a role in monitoring the service the organisation provides.

Individuals wishing to lodge a complaint with Sight For All can do so in the following ways:
- In writing to the Executive Officer
- In person with the Executive Officer
- Over the telephone with the Executive Officer
- In person with the Sight For All in-country or local area partner organisation medical officer.
Sight For All’s Executive Officer can be contacted via telephone +61 (0)8 8410 6855 or email jbickmore@sightforall.org.

Sight For All’s Complaints Policy is available on the organisation’s website and is circulated to staff, volunteers and partner organisations in-country.

Sight For All observes the ACFID Code of Conduct in all activities that are undertaken. Individuals lodging complaints with Sight For All who believe that the organisation has breached the Code are advised to notify the ACFID Code of Conduct Committee.
ACFID can be contacted via telephone on +61 (0)2 6285 1816 or via www.acfid.asn.au/code-of-conduct/complaints

Privacy

Sight For All recognises the importance of your privacy and personal information. To obtain a copy of our privacy policy, please email admin@sightforall.org.
Overview

Sight For All Limited achieved a comprehensive excess for the 2016/2017 financial year of $17,093 (2016: $105,660). This result is lower than the surplus achieved in 2015/2016 for a number of reasons.

A significant effort was made during the year in preparing for and achieving accreditation with the Department of Foreign Affairs and Trade (DFAT) for their Australian NGO Cooperation Program (ANCP). While this was a substantial undertaking in the 2016/2017 financial year, the funding available to Sight for All under the program, and the positive impact of being compliant with, generates business and financial benefits for years to come.

The considerable undertaking required to achieve DFAT accreditation, along with the completion of successful projects and planning for future projects, resulted in less overseas activities throughout this period.

The decline in surplus for 2017 was also influenced by falls in fundraising revenue to $106,754 (2016: $168,763) and in donations, which fell by 8.5% to $220,075. The Board has reviewed its fundraising and marketing plans and has invested in the future by employing a Marketing and Fundraising Officer to implement new activities commencing in the 2017/2018 Financial Year. These activities will grow future revenues.

Cash

Cash and cash equivalents at the end of the financial year were a total of $609,837. Of this total, $278,238 is earmarked for specific future projects as per Note 8 of the accounts.

Equity

The balance of total equity as at 30 June 2017 was $292,875, which is an increase of $17,093 from the previous year.

Income and Expenditure Statement

The income and expenditure statement demonstrates total revenue of $659,153 and total expenditure of $642,060, with an excess of revenue over expenditure of $17,093 for 30 June 2017.

International Aid and Development Project Expenditure for the 2016/2017 Financial Year included $192,824 as Funds for International Programs, which is a fall of $67,618 on the previous year. Total expenditure for International and Domestic Aid and Development Programs was $642,060, compared to $737,382 in 2016.

Phil Jaquillard
Treasurer
FINANCIAL OVERVIEW

Where the money came from

Community and Corporate Support $220,075
Income received from the Australian public and corporations in the form of public donations.

DFAT $0
Grants received from the Department of Foreign Affairs and Trade.

Other Australian Organisations $325,474

Other Income $113,604
Income received from interest, fundraising and sponsorship.

TOTAL SUPPORT $659,153

Where the money was spent

International Program Costs $245,837
Includes all expenses and support costs associated with our country programs.

Operating Costs $239,665
Covers administrative and other costs inherent in running an organisation, including staff time in areas such as finance, program coordination and administration, insurance premiums, office supplies, consultancy fees and other running costs. It includes coordinating all aid programs and management of volunteers’ travel and on-site engagement. Included are fundraising staff costs and in-direct costs related to events and fundraising activities. Insurance, including travel, volunteer, medical malpractice, are included in operating costs rather than international project costs and are a significant expense to enable in-country projects to be undertaken.

Fundraising Costs $81,554
Direct costs associated with event running costs. Staff wages incurred in coordinating events are recorded under operating costs.

Domestic Program Costs $75,004
Costs associated with the coordination of projects in Australia.

TOTAL COSTS $642,060
Value of volunteer services

The value of volunteer services is not included in the accounts, however the following information has been prepared in accordance with the rates approved by DFAT.

Volunteers for the year ended 30 June 2017:

- 22 ophthalmologists for a total of 186 days - Higher Professional: $98,747.71
- 2 optometrists for a total of 14 days - Higher Professional: $7,432.62
- 2 support people for a total of 35 days - Middle Professional Administration: $9,589.46

**TOTAL VALUE OF VOLUNTEER SERVICES**: $115,769.79

The real value is priceless...

*Volunteer Services*

The value of volunteer services based on rates determined by the Department of Foreign Affairs and Trade (DFAT) is a significant underestimation given the highly specialised nature of our volunteers. The above figure represents a more realistic, although still conservative, value based on public sector rates. These figures are calculated based on the average hourly rate of an ophthalmologist, optometrist and middle professional administration position.

GENERAL INFORMATION

The financial report covers Sight for All Limited as an individual entity. The financial report is presented in Australian dollars, which is Sight for All Limited's functional and presentation currency.

The financial report consists of the financial statements, notes to the financial statements and the directors' declaration.

Sight for All Limited is a not-for-profit unlisted public company limited by guarantee and is trustee for Sight for All Foundation Fund.

The financial report was authorised for issue, in accordance with a resolution of Directors, on 27 October 2017. The Directors have the power to amend and reissue the financial report.
DIRECTORS' REPORT
FOR THE FINANCIAL YEAR ENDED 30 JUNE 2017

The Directors of Sight For All Limited (SFA) present their report, together with the financial statements, for the company for the financial year ended 30 June 2017.

Directors
The following persons were directors of the company during the whole of the financial year and up to the date of this report, unless otherwise stated:

Dr James Muecke AM
Professor Robert Casson
Mr Phil Jiquillard
Mr Gavin O'Callaghan
Mr Michael Fetheringham
Mrs Melissa Emmett
Dr Nick Andrew
Professor Jonathan Crowston
Ms Jody Rowe
Chair
Vice Chair
Treasurer

Appointed 21 June 2017

Principal Activity
Sight For All delivers eye health care projects free of charge to partner communities, with the ultimate aim of eliminating vision impairment and blindness.

Short & Long Term Objectives

Long Term
To empower communities to deliver comprehensive, evidence-based, high quality eye health care through the provision of research, education and equipment.

To create a world where everyone can see.
To ensure eye care professionals have the necessary knowledge, skills and equipment and their communities have the necessary awareness, so that sustainable solutions to blindness can be addressed.
To eventually be able to leave the countries knowing that the eye care teams will be able to meet the community's needs without ongoing assistance.

To strengthen relationships to ensure Sight For All continues to have a significant impact in the delivery of eye care programs in Australia and partner countries.
To enable the key activities of education and infrastructure to work concurrently to ensure the greatest impact in-country.

Short Term
Successful achievement of Accreditation with the Department of Foreign Affairs and Trade
Continuation of in-country fellowship training projects in Cambodia, Lao, Myanmar and Vietnam
In-Country Collaborative Fellowships (Sight For All trained fellows training their own fellows in-country)
Growth of Vision 1000
Conducting the Vientiane Blindness Study in Lao and Maikilla II Study in Myanmar
Hosting The Very Slow Long Lunch, One Night For Sight, One Day For Sight and Friends For Sight events
Increased number of events coordinated by supporters of Sight For All
Increased promotion of Sight For All along Eastern seaboard of Australia and internationally
Engagement of over 120 eye care professionals in Australia and New Zealand who volunteer their time, knowledge
Removed employment of full time Executive Officer, full time Ophthalmic Public Health Research Officer and part
High level of satisfaction by volunteers and Visionaries
SIGHT FOR ALL LIMITED
ABN 62 137 061 193
as trustee for
SIGHT FOR ALL FOUNDATION FUND
ABN 99 984 596 401

DIRECTORS’ REPORT (continued)

Membership of ACFID and adherence to the ACFID Code of Conduct
Membership of the Vision 2020 Global Consortium, Global Committees, Vietnam and Cambodia Working groups
Membership of IAPB
Program Management Manual developed and in use
Risk mitigation strategies implemented for all activities
High level of satisfaction of volunteers and Visionaries
High level program management documents used for all projects

Performance measures
- Research projects completed
- Project activities funded
- Fellowships undertaken successfully
- Fellowships trained in Australia returned to their home country as experts in their sub-specialty area
- Sub-specialty ophthalmology units equipped and opened in partner countries
- Maintenance of DFAT Accreditation
- Volunteers and Visionaries highly satisfied
- Program Management Manual in use
- Risk Mitigation strategies in place
- Growth in Vision 1000 Memberships
- Events successfully coordinated and attended
- High level project management documents in place
- Staff employed and performance measures in place

Information on Directors

Name: Dr James Muecke AM
Title: Chair
Qualifications: MBBS(Hons), FRANZCO

Dr James Muecke graduated with Honours from the University of Adelaide Medical School in 1987. He trained as a general ophthalmologist in Adelaide from 1992 to 1994 and was awarded a Fellowship to work at St John Ophthalmic Hospital in Jerusalem in 1995. Dr Muecke undertook subspecialty training in oculoplastic surgery at Salisbury District Hospital in England in 1997-98. He returned to Adelaide in July 1998 to take up positions as a Visiting Ophthalmologist and the Director of the Ocular Oncology Units in the Departments of Ophthalmology at the Royal Adelaide and Women's and Children's Hospitals.

Dr Muecke has a strong interest in ocular oncology and ophthalmic development and blindness prevention. In the developing world, he was the Director of the Vision Myanmar Program (VMP) of the South Australian Institute of Ophthalmology and has been actively involved in surgical teaching, epidemiological surveys, public health campaigns, infrastructure development and blindness prevention in Myanmar since 2000. He is an author and co-author of numerous publications generated from surveys and epidemiological studies in Myanmar. He is the author, photographer and publisher of "Visions of Myanmar", a fund-raising coffee table book that raised over $100,000 for the VMP.
SIGHT FOR ALL LIMITED  
ABN 62 137 081 193  
as trustee for  
SIGHT FOR ALL FOUNDATION FUND  
ABN 69 064 596 401

DIRECTORS' REPORT (continued)

Dr Muecke has a strong interest in blindness prevention and was awarded an Order of Australia for his work in this field in 2012. He has been actively involved in ophthalmic research, teaching, health awareness and infrastructure development throughout Asia since 2000. The countries in which he has worked include Bangladesh, Bhutan, Cambodia, Indonesia, Laos, Myanmar, Nepal, Sri Lanka and Vietnam.

Dr Muecke was the founder and Director of the Vision Myanmar Program of the South Australian Institute of Ophthalmology (2000-2008) and is the founding Chairman of Sight For All (2008 to present).

Awards
• Nominee, Australian of the Year, 2017
• International Agency for the Prevention of Blindness’s Eye Health Hero Award, 2015
• Ernst & Young Entrepreneur of the Year (National winner, Social Category), October 2015
• Ernst & Young Entrepreneur of the Year (Central Division, Social Category) July 2015
• Finalist, Pride of Australia Medal 2014
• Australian Medical Association’s President’s Leadership Award for blindness prevention in developing countries, May 2013.
• Rural Health and Wellbeing Award for service to Aboriginal eye health in South Australia, November 2012.
• Member of the Order of Australia for the provision of eye health services to Asian and Australian Aboriginal communities, June 2012
• Asia Pacific Academy of Ophthalmology’s Outstanding Service to the Prevention of Blindness Award, March 2011
• Finalist, South Australian of the Year, 2010.

Special responsibilities: Chairman

Name: Professor Bob Casson
Title: Vice Chair
Qualifications: MB, BS (-honors), MScocata, DPhil, FRANZCO
Experience and expertise: Professor and Head of Discipline of Ophthalmology at Adelaide University.
Ophthalmic clinician-scientist with expertise in clinical glaucoma, developing world epidemiology and laboratory-based research
Vice Chair
Chief Scientific Advisor
Research Committee Chair
Program Management Committee Chair
Mr Phil Jaquillard
Treasurer

Qualifications:
B Com, Grad Dip Acc, CA

Experience and expertise:
PhD graduated from Flinders University in 1981 with a Bachelor of Economics and a Post Graduate Diploma in Accounting. He worked in the audit division of KPMG Chartered Accountants and also spent time in tax and business services before taking positions in commerce.

In 1990 Phil established his own practice, and in 1997 merged with David Minns to form Jaquillard Minns Chartered Accountants, with a head office in Adelaide. In 2000 SuperGuardian was established, as a specialist firm catering to the accounting and taxation requirements of small to medium enterprises.

Phil’s business has expanded to Asia, where he now has an office in Manila, and spends much time in Philippines and China. He advises clients on a range of business issues, including taxation, superannuation, and establishing businesses offshore.

He is a member of the Australia China Business Council, and is President of the Philippines Business Council of South Australia. He is a Fellow of the Institute of Chartered Accountants in Australia.

Social responsibility:
For the past several years Phil has been involved in social projects including in his capacity as Treasurer of the Mary Potter Hospice Foundation in South Australia, and as a volunteer advisor and participant in the Black Pencil Project, Philippines, which delivers pencils and study materials to school children in remote communities.

DIRECTORS' REPORT (continued)

Name: Mr Michael Fotheringham
Title: Director
Qualifications:
- Masters of Insurance Law
- Masters of Business Administration
- Bachelor of Laws
- Bachelor of Economics
- Graduate of Diploma of Legal Practice

Experience and expertise:
Mr Michael Fotheringham has practiced as a solicitor since 1995. He specialises in professional indemnity, directors and officers, casualty, public liability, product liability, insurance, special risk and business interruption claims.

Michael has presented at a number of in-house and industry seminars in both insurance law and debt recovery. Michael also contributes a number of insurance articles to well known publications including the Insurance Law Journal.

Michael is a former Board member of AILA (SA Chapter) and current Director of Sight For All.

Michael also does pro bono work for Netball (SA).

Finally Michael was the Chairman of the Australian National Drag Racing Association. That was a voluntary position.

Social responsibility:
Director

Name: Mrs Melissa Emmett
Title: Director
Qualifications:
- Bachelor of Business University of South Australia (formerly SA Institute of Technology) – major marketing

Experience and expertise:
Melissa has over 30 years experience in marketing, planning and management working for many well known brands such as Balfour's, Bedford, Safco, Faulding Pharmaceuticals, SAFE and George Weston Foods.

The last seven years have been spent consulting to a variety of organisations. With her years of experience, Melissa brings clarity to marketing decision making. Her advice is both strategic and pragmatic with the main aim of improving client's overall business performance.

Melissa's skill set includes the ability to work well in a team environment and to provide structure to the planning process. She brings focus and ideas to the marketing process and spends time understanding the issues organisations face when developing plans. Her strength is her ability to get things done and plans are always actionable and accountable.

As both a marketing manager and consultant, she has gained a very supportive network of people in the industry and believes her pragmatic and insightful approach has enabled her to keep clients for many years.

DIRECTORS’ REPORT (continued)

Name: Dr Nick Andrew
Title: Director
Qualifications: MBBS

Experience and expertise: Nick graduated from the University of Adelaide medical school in 2010 and commenced ophthalmology training in South Australia in 2014. He is currently completing his PhD in orbital inflammatory disease and has over 30 publications in peer-reviewed medical journals. During medical school Nick represented Australia in rowing on three occasions and was captain of the U23 Australian Rowing Team in 2007.

Corporate Social Responsibility: Nick became involved with Sight For All several years ago when he served as a research assistant in Myanmar on two occasions. His primary role was in collecting cataract surgical data following the donation of equipment and training by Sight For All. While a member of the Australian Rowing Team, Nick helped to raise money for the Cancer Council and the Julian Burton Burns Trust.

Social responsibility: Director

Name: Professor Jonathan Crowston
Title: Director
Qualifications: BSc, MBBS, PhD, FRCOphth, FRANZCO
2006 FRANZCO, Royal Australia & NZ College of Ophthalmology
2003-04 Glaucoma Fellowship II, University of California, San Diego
2002-03 Glaucoma Fellowship I, Westmead Hospital, Sydney
1999-02 Specialist Registrar, Moorfields Eye Hospital, London
2000 PhD, University College, London, UK
1994 FRCOphth, Royal College of Ophthalmologists, UK
1990 MBBS, Bachelor of Medicine/Bachelor of Surgery, Royal Free Hospital School of Medicine, London
1987 BSc (Immunopathology), Royal Free Hospital School of Medicine, London, UK

Experience and expertise: Jonathan Crowston is the Ringland Anderson Professor of Ophthalmology, University of Melbourne, Managing Director of the Centre for Eye Research Australia (CERA) and a practising glaucoma specialist clinician at the Royal Victorian Eye and Ear Hospital. Jonathan also holds the position of Honorary Clinical Professor at the Chinese University of Hong Kong, Department of Ophthalmology and Visual Science.

He gained his ophthalmology training at Moorfields Eye Hospital, London and was awarded a PhD for work on ocular wound healing at the Institute of Ophthalmology, University College London (2000). He subsequently completed Glaucoma Fellowships Westmead Hospital, Sydney and the Shiley Eye Center, UC San Diego where he then joined the glaucoma faculty prior to moving to Australia in 2006.

Contributions on winding up
The company is incorporated under the Corporations Act 2001 and is a company limited by guarantee. If the company is wound up, the constitution states that each member is required to contribute a maximum of $1 each toward meeting any outstanding obligations of the company.

As at 30 June 2017 the total amount that the members of the company are liable to contribute if the entity is wound up is $1 (2016/17).

Rounding of amounts
The company is of a kind referred to in Class Order 98/100, issued by the Australian Securities and Investments Commission, relating to the ‘rounding off’ of amounts in the Directors’ report. Amounts in the Directors’ report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, to the nearest dollar.

Auditor’s Independence Declaration
A copy of the Auditor’s Independence Declaration as required under s. 60-40 of the Australian Charities and Not-for-profits Commission Act 2012 is included on page 13 of this financial report and forms part of the Responsible Entities’ Report.

Signed in accordance with the resolution of the Company Directors.

On behalf of the directors

Auditor's Independence Declaration under Division 60-40 of the Australian Charities and Not-for-profits Commission Act 2012 to the Directors of Sight For All Limited as trustee for the Sight For All Foundation Fund

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2017 there have been:

1) no contraventions of the auditor independence requirements as set out in the Australian Charities and Not-for-profits Commission Act 2012 in relation to the audit; and

2) no contraventions of any applicable code of professional conduct in relation to the audit.

Bruce T. Carpenter

Notes to the financial statements for the financial year ended 30 June 2017

Note 1. Corporate Information
The financial statements of Sight for All Limited as trustee of Sight for All Foundation Fund for the year ended 30 June 2017 were authorized for issue in accordance with a resolution of Directors on 27 October 2017.

Sight for All Limited, as trustee for Sight for All Foundation Fund, is a not-for-profit company limited by guarantee. The registered office is at 3324 20-7 was CF South Australian Institute of Ophthalmology, Level 8 East Wing, Royal Adelaide Hospital, North Terrace, Adelaide 5000.

Note 2. Significant accounting policies
The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New, revised or amending Accounting Standards and Interpretations adopted
The company has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Any significant impact on the accounting policies of the company from the adoption of these Accounting Standards and Interpretations are disclosed in the relevant accounting policy.

The adoption of these Accounting Standards and Interpretations did not have any impact on the financial performance or position of the company.

Basis of preparation
These general purpose financial statements have been prepared in accordance with Australian Accounting Standards - Reduced Disclosure Requirements and Interpretations issued by the Australian Accounting Standards Board (AASB), Australian Charities and Not-for-profits Commission Act 2012, the Australian Charities and Not-for-profits Commission Regulation 2013. Sight for All Ltd is a not-for-profit entity for the purpose of preparing the financial statements.

These financial statements are ACFID Code compliant statements and comply with presentation and disclosure requirements of the ACFID Code of Conduct. Details of the code of conduct can be accessed at www.acfid.asn.au

Historical cost convention
The financial statements have been prepared under the historical cost: convention, except for, where applicable, the revaluation of available-for-sale financial assets, financial assets and liabilities at fair value through profit or loss, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Critical accounting estimates
The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

Revenue recognition
Revenue comprises revenue from government grants, donations and sponsorship. Revenue from major areas is shown in Note 4.

Revenue is measured at the fair value of the consideration received or receivable.

Revenue is recognized when the amount of revenue can be measured reliably, collection is probable, the cost incurred or to be incurred can be measured reliably, and when the criteria for each of the activities have been met. Details of activity-specific recognition criteria are detailed below.
Notes to the financial statements for the financial year ended 30 June 2017 (continued)

Government Grants
A number of Sight for All Ltd programs are supported by grants received from government.

If conditions are attached to the grant which must be satisfied before Sight for All Ltd is eligible to receive the contribution, the recognition of the grant as revenue will be deferred until those conditions are satisfied.

Where grant revenue is received on the condition that specified services are delivered, to the grantor, this is considered a reciprocal transaction. Revenue is recognised as services are performed and at year-end until the service has been delivered.

Revenue from a non-reciprocal grant that is not the subject to the conditions is recognised when the company obtains control of the funds, economic benefits are probable and the amount can be measured reliably. Where the grant may be required to be repaid if certain conditions are not satisfied, a liability is recognised at year end to the extent that the conditions remain unsatisfied.

Sight for All Limited receives non-reciprocal contributions of an asset or assets from parties for a zero or a nominal consideration, the asset is recognised at fair value on the date of acquisition in the statement of financial position, with a corresponding amount of revenue recognised in the statement of comprehensive income.

Donations and bequests
Donations are recognised as revenue when the company gains control, economic benefits are probable and the amount of the donation can be measured reliably.

Bequests are recognised when the legacy is received. Revenue from legacies comprising bequests of shares or other property are recognised at fair value, being the market value of the shares or property at the date the company becomes legally entitled to the shares or property.

Interest and dividend income
Interest income is recognised on an accrual basis using the effective interest method. Dividend income are recognised at the time the right to receive payment is established.

Other revenue is recognised when it is received or when the right to receive payment is established.

Operating expenses
Operating expenses are recognised in the profit or loss upon utilisation of the service or at the date of their origin.

Income tax
No provision for income tax has been raised as the Company is exempt from income tax under Div 50 of the Income Tax Assessment Act 1997.

Cash and cash equivalents
Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Reserves
Retained earnings include all current and prior period retained profits.
Notes to the financial statements for the financial year ended 30 June 2017 (continued)

Trade and other receivables
Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment.

Other receivables are recognised at amortised cost, less any provision for impairment.

Property, plant and equipment
Property, plant and other equipment (comprising fittings and furniture) are initially recognised at acquisition cost or manufacturing cost, including any costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the Company’s management.

Property, plant and other equipment are subsequently measured using the cost model, cost less subsequent depreciation and impairment losses.

The Board has determined that it will only capitalise assets that have a cost greater than $1,000 for the purposes of depreciation. Any asset that costs less than $1,000 will be written off and expensed in the Statement of Comprehensive Income.

Leasehold improvements and plant and equipment under lease are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

Material residual value estimates and estimates of useful life are updated as required, but at least annually.

Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognised in profit or loss within other income or other expenses.

Depreciation is recognised on a diminishing value basis to write down the cost less the estimated residual value of the Property, plant and other equipment. The following useful lives are applied:

<table>
<thead>
<tr>
<th>Computer Equipment</th>
<th>4 years</th>
<th>DV Rate 50%</th>
</tr>
</thead>
</table>

Trade and other payables
These amounts represent liabilities for goods and services provided to the company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Deferred income
The liability for deferred income is the unutilised amounts of grants received on the condition that specified services are delivered or conditions are fulfilled. The services are usually provided or the conditions usually fulfilled within twelve (12) months of receipt of the grant. Where the amount received is in respect of services to be provided over a period that exceeds twelve (12) months after the reporting date or the conditions will only be satisfied more than twelve (12) months after the reporting date, the liability is discounted and presented as non-current.

Goods and Services Tax (GST)
Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST components of investing and financing activities, which are disclosed as operating cash flows.
Notes to the financial statements for the financial year ended 30 June 2017 (continued)

Borrowings
Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

Where there is an unconditional right to defer settlement of the liability for at least 12 months after the reporting date, the loans or borrowings are classified as non-current.

Employee benefits
Short-term employee benefits
Short-term employee benefits are benefits, other than termination benefits, that are expected to be settled wholly within twelve (12) months after the end of the period in which the employees render the related service. Examples of such benefits include wages, salaries and accumulating annual leave. Short-term employee benefits are measured at the undiscounted remuneration rate expected to be paid when the liabilities are settled.

Other long-term employee benefits
The Company’s liabilities for annual leave and long service leave are included in other long-term benefits as they are not expected to be settled wholly within twelve (12) months after the end of the period in which the employees render the related service. They are measured at the present value of the expected future payments to be made to employees. The expected future payments incorporate anticipated future wage and salary levels, experience of employee departures and periods of service. Any re-measurements arising from experience adjustments and changes in assumptions are recognised in profit or loss in the period in which the changes occur.

The Company presents employee benefit obligations as current liabilities in the statement of financial position if the Company does not have an unconditional right to defer settlement for at least twelve (12) months after the reporting period, irrespective of when the actual settlement is expected to take place.

Economic dependence
The Company is dependent upon the ongoing receipt Government grants and community and corporate donations to ensure the ongoing continuance of its program. At the date of this report management has no reason to believe that this financial support will not continue.

Note 3. Significant management judgement in applying accounting policies
When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

Estimation uncertainty
Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

Impairment
In assessing impairment, management estimates the recoverable amount of each asset or cash-generating unit based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

Useful lives of depreciable assets
Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets.

Long service leave
The liability for long service leave is recognised and measured at the present value of the estimated cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.
Notes to the financial statements for the financial year ended 30 June 2017 (continued)

Note 10. Financial Risk Management

(a) Overview
The Company has exposure to the following risks from its use of financial instruments:
- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Company's exposure on each of the above risks, its objectives and policies and processes for measuring and managing risk. Further qualitative disclosures are included throughout this financial report.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework.

Risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

(b) Credit risk
Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from operating activities and investments.

Trades and other receivables
The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Geographically there is no concentration of credit risk.

Investments
The Company limits its exposure to credit risk by only investing in liquid securities and only with counterparties that have a credit rating equal to or better than the Company.
Notes to the financial statements for the financial year ended 30 June 2017 (continued)

(b) Credit risk (continued)

Exposure to credit risk

The carrying amount of the Company's financial assets represents the maximum credit exposure. The Company's maximum exposure for credit risk at the reporting date was:

<table>
<thead>
<tr>
<th>Note</th>
<th>2017</th>
<th>2016</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$</td>
<td>$</td>
</tr>
<tr>

<td>645,325</td>
</tr>
<tr>
<td>Trade and other receivables</td>
<td>100,009</td>
<td>43,886</td>
</tr>
</tbody>
</table>

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

(d) Market Risk

Market risk is the risk that changes in market prices, such as interest rates, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

All investment transactions are carried out within the guidelines of the Company's Investment Policy.

The Company's exposure to market interest rate relates primarily to its holdings of cash and cash equivalents and its borrowings.

At balance date the Company had the following financial assets exposed to Australian variable interest rate risk that are not designated in cash flow hedges:

<table>
<thead>
<tr>
<th></th>
<th>2017</th>

Note 13. Post-reporting date events

No adjusting or significant non-adjusting events have occurred between the reporting date and the date of
authorisation.

Note 14. Entity Details

The registered office of the entity as at 30 June 2017 was:

Level 8
East Wing Royal Adelaide Hospital
North Terrace
Adelaide SA 5000

Note 15. Member's Guarantee

The Company is incorporated under the Corporations Act 2001 and is a Company limited by guarantee. If the
Company is wound up, the constitution states that each member is required to contribute a maximum $1 each
towards meeting any outstanding obligations of the entity. At 30 June 2017, the total amount that members of the
Company are liable to contribute if the Company wound up is $5 (2016: $2).

Directors’ declaration

In the opinion of the Directors of Sight for All Ltd:

1. The consolidated financial statements and notes of Sight For All Ltd are in accordance with the Australian Charities and Not-for-profits Commission Act 2012, including:
   a. Giving a true and fair view of its financial position as at 30 June 2017 and of its performance for the financial year ended on that date; and
   b. Complying with Australian Accounting Standards – Reduced Disclosure Requirements (including the Australian Accounting Interpretations); and

2. There are reasonable grounds to believe that Sight for All Ltd will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of Directors made pursuant to Section 295(5) of the Corporations Act 2001 and with Section 60.15 of the Australian Charities and Not-for-profits Commission Regulation 2013.

On behalf of the Directors

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF
SIGHT FOR ALL LIMITED AS TRUSTEE FOR SIGHT FOR ALL FOUNDATION FUND

I have audited the accompanying financial report of Sight For All Limited as trustee for Sight For All Foundation Fund, which contains the statement of financial position as at 30 June 2017, the statement of comprehensive income, statement of cash flows and statement of changes in equity for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the director's declaration.

The directors of the company are responsible for the preparation of a financial report that gives a true and fair view in accordance with Australian Accounting Standards, the Australian Charities and Not-for-profits Commission Act 2012, and the reporting requirements of Australian Financial and International Development (ACFD) Code of Conduct. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of a financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
My responsibility is to express an opinion on the financial report based on my audit. I have conducted my audit in accordance with Australian Auditing Standards. Those standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making such assessments, the auditor considers internal control relevant to the entity’s preparation of a financial report that gives a true and fair view in order to design and procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independence
In conducting my audit, I have complied with the independence requirements of the Australian Charities and Not-for-profits Commission Act 2012. I confirm that the independence declaration required by the Australian Charities and Not-for-profits Commission Act 2012, which has been given to the directors of the company, would be in the same terms as given to the directors at the time of this auditor's report.

Qualification
As is common for this type of organisation, it is not practicable for the company to maintain an effective system of internal controls over donations and other fundraising activities until their entity in the accounting records. Accordingly, the audit in relation to fundraising was limited to amounts recorded.

Opinion
In my opinion, except for the matter referred to in the qualification paragraph, the financial report of Sight For All Limited as trustee for Sight For All Foundation Fund is in accordance with the Australian Charities and Not-for-profits Commission Act 2012, requiring:
1) giving a true and fair view of the company's financial position as at 30 June 2017 and of its performance for the period ended on that date; and
2) complying with Australian Accounting Standards and the Australian Charities and Not-for-profits Commission Act 2012

Basics of Accounting
Without modifying my opinion, I draw attention to note 2 to the financial report which contains the basics of accounting. The financial report has been prepared for the purpose of fulfilling the directors' financial reporting responsibilities under the Australian Charities and Not-for-profits Commission Act 2012, and to comply with the reporting requirements of Australian Council for International Development (ACFD) Code of Conduct. As a result, the financial report may not be suitable for another purpose.
