
ANNUAL REPORT 2015

SIGHT FOR ALL
A SHARED VISION

A collection of pictures on the cover page and throughout the report showcases both Sight For All's work in-country and events held to fund our sight-saving work.

Persons pictured have given consent to their images being included.

SIGHT FOR ALL
A SHARED VISION

ANNUAL REPORT

2015

Sight For All saves sight, saves lives and alleviates poverty.

OUR VISION

To create a world where everyone can see.

OUR MISSION

Sight For All empowers communities to deliver comprehensive, high quality eye care through the provision of research, education and equipment.

OUR VALUES

Collaboration: encouraging the participation of all stakeholders.

Sustainability: Fostering self-reliance through comprehensive evidence-based projects.

Respect: Promoting human rights in all dealings.

Sight For All is governed by a voluntary Board of Directors comprising ophthalmologists, an optometrist, a lawyer, an accountant, a marketing expert and a business expert.

Sight For All is a member of the World Health Organisation's Vision 2020 Right To Sight Initiative, a member of the Australian Council for International Development (ACFID) and is registered with the Australian Tax Office's Overseas Aid Gift Deductible Scheme (OAGDS).

Eye care professionals lead Sight For All and coordinate all projects. With the depth of knowledge and voluntary service they provide, we guarantee a comprehensive, sustainable and evidence-based approach.

Chairman's Report

The last year has seen further tremendous growth in Sight For All's organisational ability, accountability and credibility. Much of 2014 was dedicated towards compliance strategies to prepare us for accreditation with the Australian Government's Department of Foreign Affairs and Trade. This has allowed a comprehensive strengthening of our processes and policies. The introduction of the Xero financial management system in July revolutionised our accounting and has given us real clarity in the planning and funding of projects. The formation of Finance and Program Management Committees has further strengthened our ability to oversee and fund our wide range of projects.

The launch of our social impact investment initiative, Vision 1000, has been highly successful and has given us tremendous financial security and sustainability as we move into the next financial year. In the short six months to June 30th, we achieved 113 members at the $1000 level, nine at the $10,000 level and one at the $100,000 level. These members have gained enormous satisfaction from playing an integral role in Sight For All's powerful and sustainable work and have also had a lot of fun along the way – the Vision 1000 Cocktail Party in December, the Saints corporate box at the AFL and the Adelaide BMW Drive Day with Alan Moffat were just some of the fabulous networking opportunities. The rapid success of the program has allowed the group to purchase its first piece of equipment: to help fight glaucoma, the leading cause of preventable blindness in Cambodia.

Our educational activities are the hallmark of our fight against blindness, providing sustainable solutions to the unmet challenges confronting developing Asia. The year has seen a further two fellows from Myanmar complete 12-month subspecialty training fellowships in Adelaide – Dr May Ko Ko Thet in glaucoma and Dr Sin Htaing Min in retinal surgery. They have both returned to Yangon Eye Hospital, the premier teaching centre in their home country, with a huge armamentarium of knowledge and skills that will allow them to have a sustainable impact on blindness and lead the direction of blindness prevention in Myanmar well into the future.

Our paediatric ophthalmologist in Myanmar, Dr Than Htun Aung, has recently finished training the second paediatric ophthalmologist for the country, using expertise that he acquired during his year of training in Australia – Dr Tin Mg Thant has returned to Mandalay Eye Hospital, where Sight For All is opening the second children's eye facility in Myanmar in October 2015. Our retinal specialist at Yangon Eye Hospital, Dr San Myint, has commenced training three retinal specialists, who will subsequently work in a number of eye centres throughout the country. These are just a couple of examples of the high impact and sustainable Sight For All legacy.

Our in-country fellowship program continues to have far-reaching success in Asia, with the completion of the first neuro-ophthalmology training program in Vietnam at the end of 2014, the continuation of paediatric ophthalmology training in Cambodia and Laos, and the launch of glaucoma training in Cambodia in early 2015. Sight For All assembled its first team to train three corneal specialists in

Vietnam throughout 2015 and its first team to train colleagues in Lao in the management of diabetic eye disease, the fastest growing cause of vision loss in Asia. Our optometry team finished training a colleague in Hanoi to successfully fit contact lenses in babies who have had cataract surgery. This first for Vietnam will hopefully go a long way to reducing the burden of childhood blindness in the country. The mainstay of our in-country fellowship program is the 1000+ eye care specialists who give their time voluntarily to train colleagues in Asia, an extraordinary gesture of goodwill by them all.

The Sight For All impact has also been felt back home. Filming has commenced for our video to raise awareness of the blinding complications of diabetes amongst Aboriginal people and the various treatments that these patients may receive. We hope to complete and distribute this video in late 2015. By the end of the financial year, the My Health Program team had delivered 850 eye health presentations reaching a staggering 19,350 people in mainstream communities.

Our Events team, tirelessly championed by Mena Mandic, continues to deliver high quality fundraising spectaculars, including the very fun, very cool Very Slow Long Lunch in August, which raised money to continue our training programs in Lao. We have also continued our superb film nights, with events in both Brisbane and Sydney that showcased six of the high quality documentaries that have been produced for Sight For All (and that can also be viewed on our website). Passport For Sight in late 2014 was another successful eye health awareness exercise with eye disease due to diabetes being the focus of the extraordinary array of high calibre entries.

A big thank you to our Program Manager, Stephen Nygaard who finished in early 2015, however remains an important member of our recently formed Program Management Committee. Dr Nick Andrew joined the Board in November, bringing youth, energy and wonderful new ideas. The decision to include a trainee ophthalmologist on the Board is helping to inspire our junior colleagues to become involved in this important humanitarian arena as well as gaining valuable Board experience.

Our refreshed Board continues to steer Sight For All in a very positive and exciting direction, and our superb administrative team, with Executive Officer Judy Bidmeade at the helm, manage to keep on top of everything that is thrown at them! A big thank you must also go to our army of volunteers and our incredibly generous sponsors and donors – we couldn't do it without you all. Thank you, thank you, thank you!

Dr James Muecke AM

Chairman

Executive Officer's Report

The 2014/2015 Financial Year has proven to be a busy, productive and successful one for Sight For All. Events played a significant role throughout the year. Our major event, The Very Slow Long Lunch held in early August 2014 was attended by over 270 supporters. The event showcased why Sight For All events, coordinated by Mona Muecke and the very dedicated Events Committee, have become so highly regarded in Adelaide. The event not only provided guests with fine food and wine and great entertainment, but it also raised close to $70,000 for our sustainable teaching programs in Laos.

In November 2014, I had the opportunity to attend my first RANZCO Congress held on this occasion in Brisbane. Sight For All was provided with an opportunity to have a trade display at the Congress which among other benefits provided me with the chance to meet many of our medical volunteers or Visionaries. It was a wonderful opportunity for me to put faces to names and be able to get to know these eye care professionals in person.

While in Brisbane at RANZCO, we took the opportunity to host the first of three Films For Sight events held throughout the Financial Year. Films For Sight Brisbane allowed Sight For All Visionaries, colleagues and new supporters to view a series of short films produced by Sight For All. The films showcase the diversity and importance of the activities we undertake in our eight partner countries and here in Australia. Films for Sight Brisbane was made possible through the support of Bausch and Lomb.

In late April we hosted our second Films For Sight event, this time at the Dendy Cinema Opera Quays in Sydney. With assistance from our Sydney based Patron, Tim Horton, over 80 people viewed the films and for many it was their first introduction to the work conducted by Sight For All. Next stop was Adelaide for the third Films For Sight event, with many new faces and existing friends attending. Our thanks to Optos for their sponsorship of both the Sydney and Adelaide Films For Sight evenings.

The introduction of Sight For All's social impact investment campaign, Vision 1000 in late 2014 came at a critical time for the organisation. I commend our Chairman Dr James Muecke and his wife Mona for developing the concept of Vision 1000 to ensure Sight For All's sustainability for the future. Our sincere thanks to our Vision 1000 Members for supporting this initiative and assisting in making Sight For All a more viable organisation. In June Vision 1000 Members purchased a vital piece of equipment to be used for the diagnosis of glaucoma in our partner country of Cambodia.

Throughout the year Sight For All has become more active with organisations including ACFID and Vision 2020. Our staff and Board Directors have participated in meetings and collaborated with these organisations, and we have learnt and grown as a result of this interaction. We look forward to a greater level of involvement in the new financial year, particularly as a member of the Vision 2020 Global Consortium.

The 2014/2015 Financial Year has seen the introduction of two new committees. The Finance Committee, chaired by our Treasurer, Phil Jacillard met for the first time in early 2015. This committee has become a core function of our governance and financial operations. The new Program Management

Committee, chaired by Professor Bob Clarke and involving external members with international development and public health expertise, has already resulted in improvements to our project management capabilities.

Volunteers, both our medical Visionaries and non-medical volunteers, continue to be a huge asset to Sight For All. From our volunteers in the office, to providing website support, to our dinner committee members and of course our dedicated Visionaries, volunteers make our sight-saving work possible. We could not undertake our activities so successfully without their support and for that we are truly grateful.

It was with much sadness that our Program Manager, Stephen Nygaard changed roles in March 2015. Stephen brought historical knowledge of projects and new ideas on ways of continuously improving our in-country activities. We are pleased that Stephen has decided to continue his involvement with Sight For All as a voluntary member of the Program Management and Research Committees.

We were delighted that our Ophthalmic Public Health Research Fellow, Dr Cesar Carrillo was able to remain with us for another year as a result of funding from the Thyne Reid Foundation. As an ophthalmologist, Cesar plays a vital role in our small staff team, bringing knowledge from an ophthalmic and public health perspective to our activities. The teaching that Cesar undertook throughout the year in Laos resulted in an increased level of skill and knowledge of the resident doctors at the National Ophthalmology Centre in Vientiane.

Leanne Harries, Finance Office Coordinator has completed her first year of employment with Sight For All. In addition to having responsibility for financial processes, Leanne also coordinates the office functions and liaises with Visionaries in planning their trips. Leanne takes on all tasks with enthusiasm and dedication and the assistance she provides to all of us is very much appreciated.

The Sight For All Board of Directors brings diverse skills, knowledge and experience to our organisation. The involvement of our newest Board Director, Dr Nick Andrew has provided new ideas and a different perspective to our fundraising and in-country activities. I have had the opportunity throughout my first 18 months with Sight For All to work with each Board Director on individual projects. I thank all Board Members for their unique expertise and ongoing support both of the organisation and of me personally.

A very big thank you must go to our many sponsors and supporters of Sight For All. Throughout the past year we have been supported by many incredibly generous organisations, individuals, families, trusts and the Australian Government. From sponsorship of our major events, to those who have joined Vision 1000 through to businesses who donate their products to aid us with our work, the diversity of assistance is incredibly humbling and we continue to be indebted for the multitude of support.

Judy Bickmore BSSC, G Dip HC

Executive Officer

Sight For All's Key Strategies in the Fight Against Blindness

Collaborative Field Research

- Adult blindness studies
- Childhood blindness and refractive error studies
- Studies into the genetics of blinding diseases
- Studies exploring the impact of educational and eye health awareness initiatives

Education and capacity building

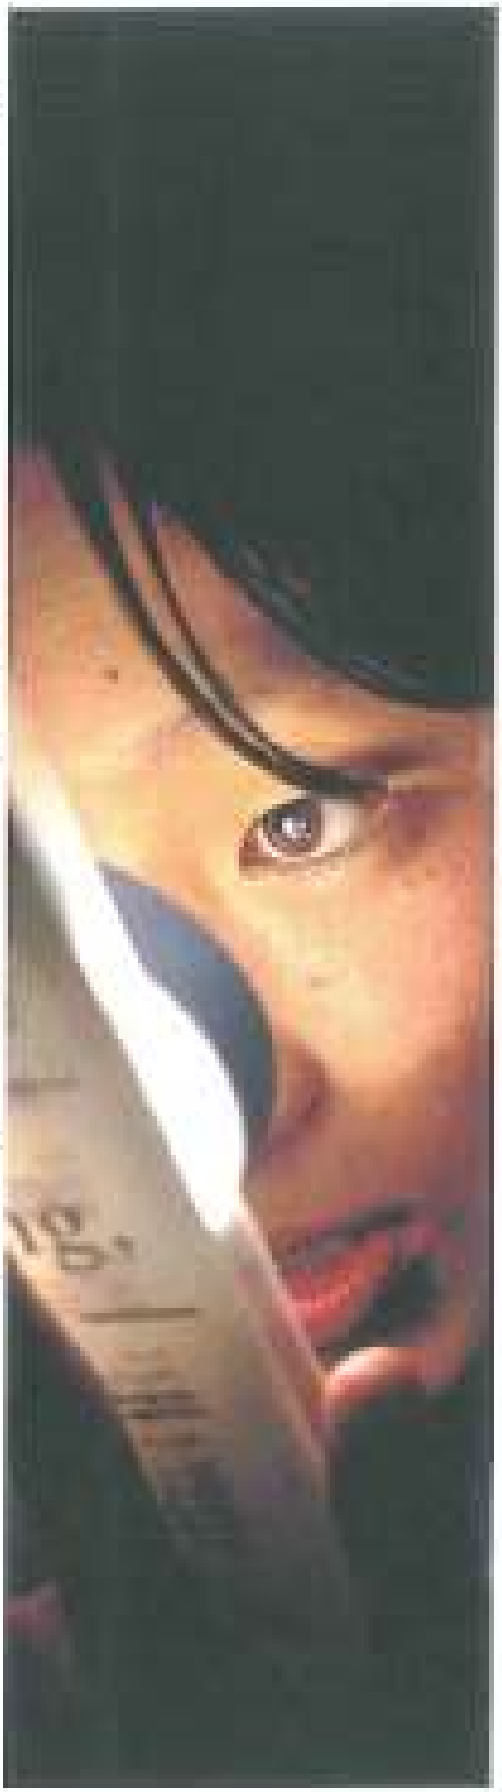
- Workshops and curriculum development for ophthalmologists in-training
- External input into assessments and examinations of ophthalmologists in-training
- Continued education and leadership workshops for graduate ophthalmologists and optometrists
- Hand-on subspecialty fellowships for graduate ophthalmologists and optometrists

Primary eye care and eye health promotion

- Primary eye care workshops for nurses and health care workers
- Workshops to overcome barriers to cataract surgery
- Public awareness campaigns e.g. cataract, diabetic eye disease, childhood vision screening

Infrastructure support

- Equipment and facility upgrades at primary training institutions and regional eye centres
- Establishment of subspecialty units e.g. cornea, glaucoma,oculoplastics, paediatric, retina
- Establishment of optometry facilities
- Establishment of low vision services
- Establishment of optometry facilities
- Establishment of low vision services



SIGHT FOR ALL
A SHARED VISION

10,000 – the amount of hours Sight For All's team of eye care specialists will donate to sightsaving training overseas each year.

$0 = the amount that Sight For All's team of eye care specialists will be paid for their critical work.

Sight For All Research Program

The Sight For All Research Program is designed to provide an evidence base for the program delivery that we undertake. Research is a key priority area for Sight For All and is but the organization was founded following a population-based survey in Central Myanmar that detected the highest prevalence of blindness in any population ever reported. We recognize the importance of connecting data collection with sustainable program delivery. Sight For All encourages young Australian eye doctors and trainees to be involved in developing world research.

Our research is conducted in collaboration with local eye doctors and health care workers. In addition to collecting valuable data, it provides the local health care workers with an opportunity to participate in scientific research and enhance their critical thinking skills that can be incorporated into clinical practice. The data obtained from scientific studies is used to inform policy making at the hospital and governmental levels.

In addition to the Myanmar study, Sight For All has conducted population-based visual impairment surveys in Sri Lanka and a large school-based survey of spectacle needs in Lao and Cambodia. Sight For All has conducted studies in schools for the blind in Bhutan, Lao, Cambodia, Myanmar and Sri Lanka. This has determined causes of blindness in children and led to effective treatments for many children. New genetic causes of blindness were also discovered in Cambodia.

Sight For All has commenced a visual impairment survey in Vientiane and is planning a national blindness survey in Lao PDR, the first of its kind in South East Asia.

Infrastructure Support

The provision of infrastructure is one of Sight For All's key strategies in the fight against blindness. Over the years, Sight For All has provided valuable ophthalmic equipment to ensure our in-country colleagues have the specific sub-specialty equipment they need to treat patients. This has included the establishment of paediatric units in Cambodia, Laos, Myanmar and Sri Lanka. In October 2015, Sight For All, with assistance from the Australian Government, will be establishing the second paediatric unit for Myanmar, this time in Mandalay. Sight For All has also established glaucoma units in Bhutan,Cambodia,Myanmar and Lao and retinal units in Myanmar and Sri Lanka.

Testimonials from the Team

"I'm constantly amazed at how much can be achieved when the right people are provided with the right tools and the knowledge to use them. Their palpable gratitude was overwhelming and we were providing the things we take for granted back home. You could see the joy on the doctors' faces when they realised that at last they could thoroughly examine and treat their patients. The smiles on the parents' faces when they learnt that their child now had a chance to see."

Dr Craig Donaldson, New South Wales

"The trip was inspirational and was a reminder to me of why I studied medicine. As doctors we are at the frontline and can make significant changes for the better in people's lives. The work that Sight For All has done in Laos and other parts of Southeast Asia is truly making a fundamental impact on building the expertise required by the doctors in these regions to ensure sustainable delivery of the highest possible standard of ophthalmic care for the future"

Dr Graham Lee, Queensland

"I was born in a developing country and education got me to where I am now. To be able to give back, with education, to our partnering developing countries with Sight For All has been a personal dream fulfilled. I could see the immediate impact of Sight For All's in country fellowship on the next generation of Laos ophthalmologists. I can't wait for my next adventure with Sight For All."

Dr Rita Lin, New South Wales

"I spent a week at the VNEI in Hanoi training a small team to fit specialty contact lenses. There are some conditions in which contact lenses are the best and sometimes the only option, so during the week I was there, I was lucky enough to witness some with reduced sight see clearly again and even lucky enough to see some babies see for the first time. Each experience was touching, however not as much so as knowing that this team of dedicated individuals will continue to provide sight for many more to come. Words can't describe how lucky and proud I feel to have contributed."

Ms Jessica Chi, Victoria

12 TIMES

Visiting Fellowship Program

After much planning, Dr San Hlaing Min arrived in Adelaide in July 2014 to conduct his year-long Vitreo-Retinal Fellowship at the Royal Adelaide Hospital. Dr Min from Yangon, Myanmar settled into life and work in Adelaide very quickly and his impact on the Royal Adelaide Hospital Eye Clinic was quickly felt. Dr Min was mentored by A/ Prof Henry Newland and his fellowship was made possible through coordination by the South Australian Institute of Ophthalmology (SAIO). Our thanks to Dr Newland and SAIO for their support.

In February 2015, Dr Myo Ko Ko Thet returned home to Yangon after successfully completing her 12 month Glaucoma Fellowship in Adelaide at the Flinders Medical Centre and the Royal Adelaide Hospital. Dr Thet's fellowship was made possible through funding from the Department of Foreign Affairs and Trade's ALAF program. Thanks to Sight For All Volunteers Professor Bob Casson, Dr Anna Galanopoulos and Prof. James Craig for the support and guidance they provided to Dr Thet while she was in Adelaide.

Our congratulations to Sight For All Fellows, Dr Thin Htun Aung (Paediatric Ophthalmology), Dr Khine Su (Oculoplastics), and Dr San Hlaing Min (Vitreo-retina) who have been granted the title of Associate Professor by the School of Medicine in Yangon. Congratulations also to Dr San Myint for being granted the title of Professor by the School of Medicine, Yangon. Sight For All's Visiting Fellowship Program continues to be a successful and key strategy in our fight against blindness. Not only are the fellows provided with the concentrated opportunity for learning and hands on experience, the fellowship also enables strong relationships that continue between colleagues here and in-country well into the future.

Our thanks to all of those involved in the planning, coordinating, teaching, mentoring and welcoming of our fellows here in Australia.

In-Country Fellowship Program and Workshops

The provision of In-Country Fellowships is another key activity in Sight For All's fight against blindness. Over the past year our in-country fellowship programs have resulted in training and skills development in specific sub-specialty areas for fellows in Cambodia, Lao and Vietnam.

Sight For All's In-Country Fellowship program is made possible through the donation of thousands of hours by our Volunteers or medical volunteers each year. These Volunteers travel to our partner countries for a week or two at a time to teach, mentor and guide the fellows. We thank each Volunteer for their commitment and enthusiasm in sharing their wealth of knowledge.

Cambodia

Sight For All's two year Paediatric In-Country Fellowship for Dr Kheng and Dr Sokophy has continued throughout the 2014/2015 Financial Year. Our thanks to a XUVA Award from Novartis for funding this training. Thus far nine Volunteers have provided 11 weeks of coaching for this program in Phnom Penh with two more visits still to complete the fellowship.

In addition to the Paediatric In-Country Fellowship, Sight For All has also been training two ophthalmologists at the Khmer Soviet Friendship Hospital, Dr Heng and Dr Thanath, in the sub-specialty area of Glaucoma. The request to conduct this fellowship was made by our colleagues as there were no trained glaucoma specialists in the country. As glaucoma is one of the leading causes of blindness in Cambodia, Sight For All welcomed the request to undertake this training.

Lao

The Southeast Asian country of Lao has been a focus of Sight For All over the past twelve months. In addition to the significant teaching of residents conducted by Sight For All's Ophthalmic Public Health Research Fellow, three in-country fellowship programs have been conducted at the National Ophthalmic Center (NOC) in Vientiane.

Our Glaucoma In-Country Fellowship Program for Dr Khamphoua Southisombath was completed in September 2014. The fellowship was extremely successful and Dr Khamphoua has become the first Glaucoma specialist in the country. He is now leading one of the NOC's busiest clinics and providing glaucoma teaching for junior doctors.

Sight For All's two-year Retina Fellowship for Dr Khanikhoune Holanouyday commenced in December 2014. This fellowship involves teaching of medical retina in the first year and vitreo retina in the second year. The Retina fellowship will enable Dr Khanikhoune to treat patients at NOC who have vision loss caused by diabetes and other retinal disorders.

Two ophthalmologists, Dr Sipkhathavong Sinlavanouk and Dr Phoumpanya Luangsibouk commenced their Oculoplastics Fellowship in August 2014. This fellowship is being conducted over a two year period, with Sight For All Volunteers travelling to Lao every second month.

Vietnam

Sight For All's very successful Vietnam Contact Lens Training Program that ran throughout 2014 provided opportunities Minh Anh with extensive training for the fitting of contact lenses to patients following cataract surgery. The contact lens training program at the VNEO has enabled the team of an Optometrist and an Ophthalmologist to prescribe lenses for sight saving correction when there is no other option for babies after cataract surgery as well as adult patients with eye disease or injury which would otherwise render them blind. Sight For All's expert faculty of Contact Lens Specialist Optometrists travelled to Hanoi over the course of 2014 to deliver lectures, tutorials and clinical coaching to upskill our partners in the refractive department to become expert in this crucial but often neglected aspect of sight-saving vision correction. Minh Anh now has the knowledge and experience to teach other optometrists she's still in the future.

Our twelve month Neuro-ophthalmology Fellowship for Dr Nguyen Tuan Anh, Dr Quang Ngoc and Dr Le Xuan Hung from central Vietnam concluded in December 2014. The fellowship was extremely successful, with the fellows gaining significant knowledge on how to diagnose and treat patients with neuro-ophthalmological conditions. Thank you to Professor John Crompton for his leadership of this fellowship.

Upon completion of the Neuro Ophthalmology Fellowship, the Corneal Fellowship then commenced in January 2014. Three ophthalmologists, Dr Tram Khanh Sim, Dr Nguyen Thi Thu Thuy and Dr Vo Thi Lan Phuong will be trained in this subspecialty over a twelve month period.

Myanmar

Dr Stephen McGowan travelled to Myanmar in January 2015 as part of the ophthalmology workshops conducted prior to the Master Course exams. Dr McGowan spent a week teaching junior doctors about ophthalmology examination techniques and investigations.

A/Prof Henry Newland returned to Yangon and Mandalay in June 2015 to undertake further vitreo-retinal training for four fellows. The fellows are being trained at Yangon Eye Hospital by Professor San Myint and A/ Prof San Hlaing Min, both trained at the Royal Adelaide Hospital by A/Prof Newland who is now monitoring the course of the fellowship in Yangon.

Thanks to Dr McGowan and Associate Professor Newland for their ongoing support of teaching in Myanmar.

In-Country Collaborative Fellowships

Sight For All's sustainable teaching model enables our trained fellows to train fellows of their own. In 2009, Sight For All trained Dr Than Htun Aung, Myanmar's first paediatric ophthalmologist at the Adelaide Women's and Children's Hospital. Dr Tin Mg Thant spent twelve months training in Yangon with Dr Aung and has now returned to Mandalay to begin treating patients of his own. Thanks to the Australian Government, Sight For All will equip Dr Thant's children's eye clinic in October 2015. Professor San Myint has now trained six medical specialists at Yangon Eye Hospital.

MILLION
HALF A MILLION
ANNUALLY
GROWING EVERY YEAR

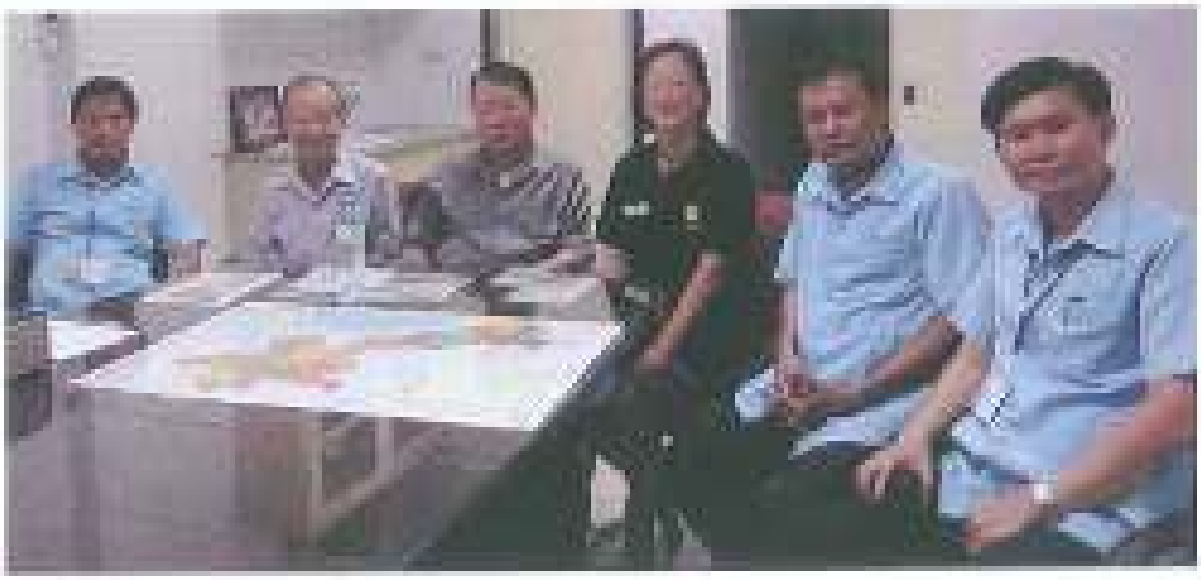
Sight For All Project Management

Sight For All's key activities over the 2014/2015 financial year have continued to be the implementation and coordination of our numerous projects, including research activities, in-country and visiting fellowship programs, in-country collaborative fellowships, infrastructure projects, the Aboriginal Eye Health Initiative and the My Eye Health Program.

The establishment of the Project Management Committee in mid 2013, with guidance from experts in the areas of project management, international development and public health, has provided Sight For All with further opportunities to manage our projects and oversee the development of Sight For All's Project Management Manual.

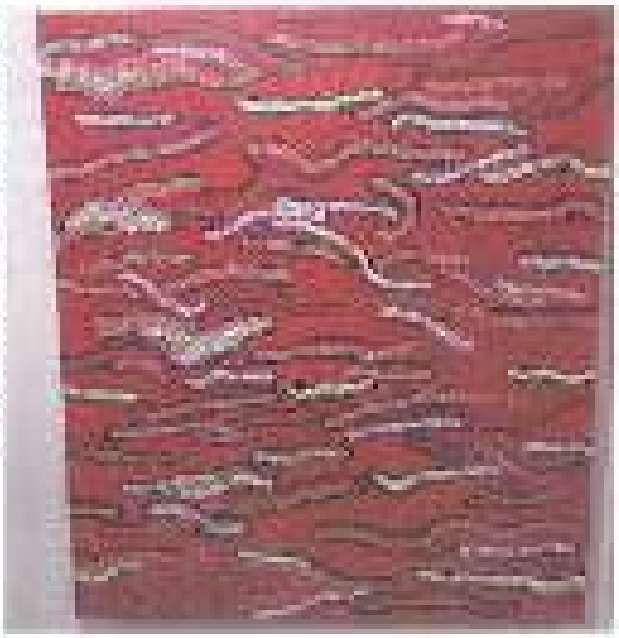
Management of Sight For All's projects is critical, and as such we have developed a variety of mechanisms to ensure and to evaluate program effectiveness, including:

- The collection of data from in-country partners, including:
  - number of fellows trained within each subspecialty
  - number of patients seen and surgeries performed by these fellows upon return to their home country
  - number of fellows subsequently trained by these fellows
  - number of subspecialty units established or upgraded within partner tertiary eye centres
  - number of regional or secondary eye centres established or upgraded
  - surgical output of these centres, in particular for cataract, glaucoma and diabetic eye disease
- The evaluations of fellows within Visiting and In-Country Fellowship Programs (pre-fellowship, mid-term and post-fellowship).
- The submission of reports by visiting volunteer specialists or Volunteers (ophthalmologists, optometrists, ophthalmic nurses, scientists) following research trips, teaching visits, or infrastructure projects. Such reports also include recommendations for improvements or areas of further development required by the fellows or their respective centres.



Aboriginal Eye Health Initiative

Dr Conor Carrick travelled to Yalata Aboriginal community in remote South Australia in May 2015 to work with Dr Stuart Lake and the Aboriginal Health Council of South Australia on a video to promote eye health. The video is the third in a series of Sight For All eye health educational videos and its focus on diabetic retinopathy highlights a growing health problem in our Aboriginal population. The key messages are healthy diet, exercise, good diabetic control and the importance of having regular eye checks. The production of the video has been made possible through the support of Australian Executor Trustees.



My Eye Health Program

The My Eye Health Program is an initiative of Sight For All, the Royal Society for the Blind, the Royal Australian and New Zealand College of Ophthalmologists (SA branch) and the Freemasons Foundation. Sight For All together with My Eye Health Program (MEHP) staff are collecting data to evaluate the impact that the Program is having on the South Australian community. Assessing behaviour and knowledge about vision loss and eye health services prior to and after attending the MEHP educational sessions will help to determine the impact of the Program. The results of the MEHP evaluation will be used to promote the activities of the Program and contribute to justifying the need and benefit to the target audience.

During the 2014/2015 Financial Year, the My Eye Health Program delivered 850 eye health presentations to over 19,000 people.

Volunteers

The theme of National Volunteer Week held in May 2015 was "Give Happy – Live Happy," based on research that those who volunteer are happier as a result. The volunteer surveys conducted in 2014 have helped Sight For All to introduce recommendations to assist and support both our medical and non-medical volunteers.

Medical volunteers or Visionaries make Sight For All's In-Country Fellowship programs possible. Through the support of Visionaries, Sight For All has provided sub-specialty educational programs to our partner countries, ensuring our fellows have the skills and knowledge to treat patients in their communities for many years to come.

Non-medical volunteers assist Sight For All in a range of capacities. This includes time spent each week in the Sight For All office; welcoming and settling in fellows upon arrival in Australia; assisting with marketing and PR activities; and planning major events. Sight For All is grateful to all of our non-medical volunteers for the significant contribution they make to our organisation.

Events

The Very Slow Long Lunch

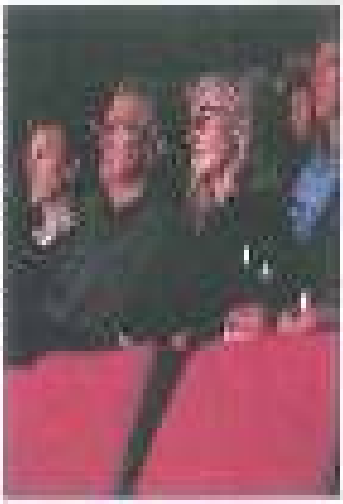
Sight For All's main event for 2014/2015 was The Very Slow Long Lunch. Held on Saturday 9 August, this event was attended by over 220 people in an urban inner-city warehouse. In keeping with Sight For All's reputation for unique high quality events, the Very Slow Long Lunch was no exception. Guests enjoyed a hearty winter lunch catered by Emma Parsons, matched with Kangarilla Road Wines sparkling water by Ten Acre Trading and liqueurs by The Republic Hotel. Guests were entertained by guest speaker Amanda Vanstone, and participated in the major auction which featured a range of experiences and artwork including the gorgeous painting by Art Alive Artist, Angus Hamm.

Thanks to our Platinum Sponsor Insevio, the event raised almost $70,000 for Sight For All's Oculoplastics and Retina Fellowship programs in Lao.

Films For Sight

Sight For All's series of short films depicting the work being done by Sight for All in our partner countries and educational messages here in Australia were shown as part of three Films For Sight events. Held in Brisbane in November, Sydney in April and Adelaide in May, the Films For Sight evenings provided guests with an opportunity for networking, learning more about Sight For All and understanding the impact of blindness on individuals and communities.

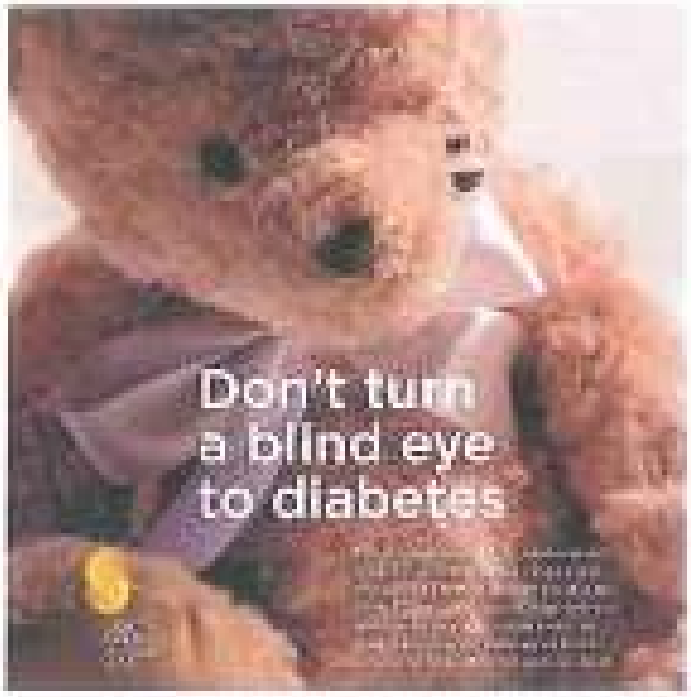
Our thanks to Bausch and Lomb for sponsoring Films For Sight Brisbane and to Optos for their sponsorship of Films For Sight Adelaide and Sydney.

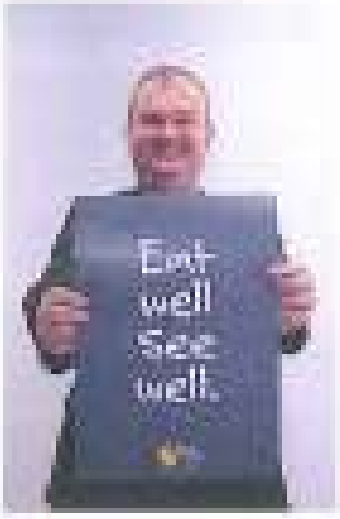


Posters For Sight

Posters For Sight was held for the second time in 2014. This year included three categories – primary school, middle/secondary school and tertiary level. The theme for all three categories was vision loss caused by diabetes. A number of schools participated in the competition, with students from Scotch College and our Lady of the Sacred Heart winning the primary and middle/secondary categories respectively. Congratulations to tertiary winner, Sarah Tee.

Posters For Sight 2014 was made possible by the generous support provided by principal sponsor Health Partners and supporting sponsor High Noon Tint.





Sight For All Events Committee

Sight For All events are made possible by the talented and committed Events Committee led by Chairperson Mona Muscio. This year we said farewell to committee members Abbey Hall and Angela Bowen and welcomed new members Lisa Dow and Sarah Hyde. Our thanks to the tireless events committee for their commitment, creativity and passion.

Mona Muscio, Chairperson	Felicity Reeves
Judy Bidemore, Secretary	Jane McMahon
Lisa Dow	Joanne Rose
Melissa Emmett	Dawn Taylor
Leanne Harris	Sam Taylor

Board of Directors

A team of voluntary Board of Directors govern Sight For All. To ensure our focus of ophthalmic health care remains at the core of our activities, at least 50% of Directors appointed to the Board at any one time must be ophthalmic health care professionals.

"Witnessing and contributing to improvements in ophthalmic care in developing countries is a rewarding experience and provides powerful motivation to continue this work. It is a privilege to have the opportunity to use my skills and knowledge as part of a team that is making such huge differences."

Professor Bob Casson

"We are extremely fortunate to have great education, health services, quality food and shelter, why would you not wish to ensure that others are able to access the same to reach their potential. I am Deputy Chair of Sight for All because I know that the people who support Sight For All's activities, also have this vision."

Ms Sue Tapsell, Vice Chair

Dr James Muecke AM - Chair

James is an eye surgeon based in Adelaide. He is a visiting consultant and senior lecturer at the Royal Adelaide Hospital and Women's and Children's Hospital. James has a special interest in blindness prevention, ophthalmic research and education in the developing world. James was a co-founder and Director of the Vision Myanmar Program. He received an "Outstanding service to the prevention of blindness" award by the Asia-Pacific Academy of Ophthalmology in 2011. He was awarded a Member of the Order of Australia in 2012 and received a South Australian Community Achievement Award. In 2015 James was the recipient of the Ernst Young Social Entrepreneur of the Year Award.

Ms Susi Togen - Vice chair

Susi is the CEO of the Medical Association of Australia and former CEO of RANZCO where she built significant national and international relationships. These positions, along with other executive-level roles and Board appointments have provided Susi with experience and knowledge from the business sector. Susi has been the Deputy Chairman for FarmBis SA, Farmsafe SA and a member of the Services committee for the SA Farmer's Federation. Susi has a special interest in and passion for international development and rural & remote services. Susi's contribution to the business and rural sector has been rewarded with awards including the SA Rural Woman of the Year and Telstra Business Women NoVis Business Innovation award, both in 2003.

Mr Phil Jaquillard - Treasurer

Phil Jaquillard is a partner of Jaquillard Moss Chartered Accountants and a Director of SuperGuardian Pty Ltd. He holds a B Sc from Flinders University and a Post Grad Diploma in Accounting. Phil consults to business on a wide range of matters including taxation, business structures, information technology, wealth management and offshore business. He is actively involved in charitable projects, including as Treasurer for the Mary Potter Foundation in Adelaide, and as a volunteer and adviser to Black Pencil Project in the Philippines.

Professor Bob Casson - Director

Bob is an ophthalmic surgeon-scientist with particular interest in glaucoma and ophthalmic epidemiology in the developing world. He is proud to be a founding Director of Sight For All, where he has the role of chief scientific adviser, with a particular focus on the interface between ophthalmic science and the elimination of preventable blindness in the developing world.

Mr Gavin O'Callaghan - Director

Gavin is an Optometrist in private practice, a Clinical Senior Lecturer in Ophthalmology at the University of Adelaide and has a visiting appointment at the Contact Lens Clinic at the Royal Adelaide Hospital. He is a Graduate of the Australian Institute of Company Directors, and holds numerous Director positions. He is a member of the Optometry Council of Australia & New Zealand examination committee, and a member of the University of Melbourne Department of Optometry & Vision Sciences course advisory committee.

Mr Michael Fotheringham - Director

Michael is a partner at Wisker Hilditch Fotheringham Lawyers. He has a Master of Laws majoring in Insurance Law and a Masters of Business Administration. He specialises in professional indemnity, directors and officers, casualty, public liability, product liability, insurance, special risk and business interruption claims. Michael regularly contributes articles to various journals including the Insurance Law Journal. As a Board Member Michael continues to provide his legal expertise since the formation of Sight For All.

Mrs Melissa Emmett - Director

Melissa is the principal consultant for Emmett Marketing. She has a business degree majoring in marketing from the University of South Australia. For over 30 years her career in marketing and brand management included working with brands such as Snappy Tom, SAFCOL, Balfours, Foulding, and SAPE. More recently as a consultant she has worked with SPBF Association, Dressed for Sale, Bedford, George Weston Foods and Optimistic Kids. Her expertise is in strategic planning and marketing advice.

Dr Nick Andrew - Director

Nick is an ophthalmology registrar and is also completing a PhD in ophthalmology, with over 30 peer-reviewed publications. Nick has accompanied Sight For All to Myanmar on two occasions to collect post-intervention cataract surgery data. Outside of ophthalmology, Nick is a keen rower and has represented Australia three times. Nick looks forward to advancing the cause of Sight For All and is delighted to serve as a Board Director.

Research Committee

The Sight For All Research Committee develops and implements research projects to construct an evidence base for and assess the impact of Sight For All and partner activities.

- Professor Bob Casson (Chair)
- Mr Stephen Nygaard (Secretary)
- Dr Cesar Carrillo
- Dr James Maeder

In December 2014, Professor Bob Casson, Dr Cesar Carrillo and Mr Stephen Nygaard undertook the pilot study for the Lao National Blindness and Vision Impairment Survey in Lao PDR. The survey will help generate evidence about the prevalence and causes of blindness and vision impairment in the country. This will support policy makers and stakeholders to work towards the elimination of blindness in Lao.

Finance Committee

The Sight For All Finance Committee assists the Sight for All Board of Directors in overseeing the organisation's financial performance, financial policies and capital structure and expenditure.

- Mr Phil Jupiter (Chair)
- Mrs Leanne Hamm (Secretary)
- Ms Judy Bickmore
- Dr James Muecke

Marketing Committee

The Sight For All Marketing Committee is a small group of committed professionals, who develop and implement marketing plans to raise awareness and funds for Sight for All.

- Mrs Melissa Bennett (Chair)
- Ms Judy Bickmore (Secretary)
- Ms Annie Gore
- Ms Kim Groves
- Dr James Muecke
- Mrs Mara Muecke
- Mr Denver Rogers
- Mr Stuart Symons

Program Management Committee

The Sight For All Program Management Committee develops and implements program management plans, methods for collecting and recording data, strategies for monitoring and evaluation and reviews program needs assessments, reports and recommendations that have been made.

- Professor Bob Casson (Chair)
- Mr Stephen Nygaard (Secretary)
- Mr Paul Alward
- Ms Judy Bickmore
- Dr Cesar Carrillo
- Mr Zach Fisher
- Dr James Muecke

Patrons

Sight For All Patrons share our vision for a world in which there is no blindness.

- Mr Graham Cornes

Vision 1000

"Never doubt that a small group of thoughtful, committed citizens can change the world; indeed it's the only thing that ever has." Margaret Mead

Sight For All's social impact investment campaign, Vision 1000, was launched at the end of 2014. The campaign, designed by Sight For All Chairman James Muecke and his wife Mora was developed to ensure Sight For All could remain sustainable well into the future. Funds raised through Vision 1000 contribute to the operational costs needed to ensure our many projects can be implemented and coordinated.

Vision 1000 also has an infrastructure focus. Prior to the end of the 2014/2015 financial year, Vision 1000 was responsible for purchasing a pachymeter machine to be used in Cambodia. Pachymetry assists with the diagnosis and treatment of glaucoma. Glaucoma is one of the leading causes of blindness in Cambodia and without treatment, patients have a high risk of progression to severe visual impairment or blindness.

We have been overwhelmed with the number of individuals, businesses, families and trusts who have joined Vision 1000 since late 2014. As of 30 June 2015, Sight For All had 113 Vision 1000 Members; 8 Vision 100 Members and one Vision 10 Member. The investment by Vision 1000 Members is assisting us in ensuring Sight For All is a robust organisation that is having an enormous and sustainable impact on blindness.

To celebrate the success of Vision 1000 and to thank our Members for their support, Sight For All was able to offer Vision 1000 Members the opportunity to test drive some of BMW's premium models with racing legend Allan Moffat. The BMW Drive Day held in early June 2015 was provided with thanks to Adelaide BMW.

Accountability

Australian Council for International Development

Sight For All is proud to be a member of the Australian Council for International Development (ACFID).

As a member of ACFID, Sight For All fully adheres to the ACFID Code of Conduct.

Sight For All's financial statement included in this Annual Report are prepared in accordance with the ACFID Code of Conduct.

Grievances

Sight for All is committed to providing quality service to all individuals and organisations with which we are associated and welcomes feedback from volunteers, partner organisations and associated businesses to play a role in monitoring the service the organisation provides.

Individuals wishing to lodge a grievance with Sight For All can do so in the following ways:

- In writing to the Executive Officer
- In person with the Executive Officer
- over the telephone with the Executive Officer
- In person with the Sight For All in-country or local area partner organisation medical officer.

Sight for All's Executive Officer can be contacted via telephone +61 (0)8 8223 4937 or email jbickmore@sightforall.org

Sight For All's Grievance Policy is available on the organisation's website and is circulated to staff, volunteers and partner organisations in-country.

Sight For All observes the ACFID code of conduct in all activities that are undertaken. Individuals lodging a grievance with Sight For All who believe that the organisation has breached the Code are advised to notify the ACFID Code of Conduct Committee. ACFID can be contacted via telephone on +61 (02) 6285 1816 or via www.acfid.asn.au/code-of-conduct/complaints.

TREASURER'S REPORT

I am pleased to present the Treasurer's Report for the year ended 30 June 2015.

Overview

Sight For All Limited achieved a comprehensive excess for the financial year of $60,088.

This result helps to build our financial reserves, which is in accordance with goals set by the Board to strengthen the financial position of the Foundation. By increasing reserves we are in a stronger position to withstand fluctuations in donor income from year to year, yet still be in a position to maintain operations and support the excellent work undertaken by our volunteers working in Australia and in South East Asia.

During the year we introduced the Vision 3000 campaign and this initiative has helped us to not only improve our reserves, but to also fund equipment purchases.

Grants from the Australian Government represented $73,416 of income for the financial year. This included amounts brought forward from the 2013/2014 financial year.

General donations and investments to Sight For All's social impact investment campaign introduced in late 2014 resulted in an amount of $204,212 in total donations for the financial year. This was an increase from $51,950 in the 2013/2014 financial year.

Cash

Cash and cash equivalents at the end of the financial year were a total of $353,711. Of this total, $154,726 is earmarked for specific future projects as per Note 8 of the accounts.

Equity

The balance of total equity as at 30 June 2015 was $370,122, which is an increase of $60,088 from the previous year.

Income and Expenditure Statement

The income and expenditure statement demonstrates total revenue of $661,787 and total expenditure of $601,699 with an excess of revenue over expenditure of $60,088 for 30 June 2015.

International Aid and Development Project Expenditure for the 2014/2015 Financial Year included $150,428 as funds for international programs. Total expenditure for programs, domestic and international was $319,558, compared to $676,617 in 2014.

Fundraising expenditure for the 2014/2015 financial year (public, Government, multilateral and private) was lower at $49,984 than the previous financial year with an expenditure of $90,798. This is attributed to major event costs in December 2013 that were not experienced in the 2014/2015 financial year.

Phil Jaquiery

Treasurer

FINANCIAL OVERVIEW

FINANCIAL SUMMARY FOR THE YEAR ENDED 30 JUNE 2014

WHERE THE MONEY COMES HIGH

INCOME	TOTALS
Community and Corporate Support	$300,212.80
DFAT (AusAID)	$54,172.00
Other Australian Organisations	$305,051.20
Other Income	$102,401.00
TOTAL SUPPORT	$661,786.00

Community and Corporate Support
Income received from the Australian public and corporations in the form of public donation

DFAT (AusAID)
Grants received directly from DFAT.

Other Australian Organisations
Income received from other Australian Organisations, trusts and foundations.

Other Income
Income received from interest, fundraising and sponsorship.

WHERE THE MONEY IS SPENT

COSTS	TOTALS
International Program Costs	$219,120.00
Operating Costs	$232,157.00
Fundraising Costs	$49,969.00
Domestic Program Costs	$100,428.00
TOTAL COSTS	$601,693.00

International Program Costs

Includes all expenses and support costs associated with our country programs.

Operating Costs

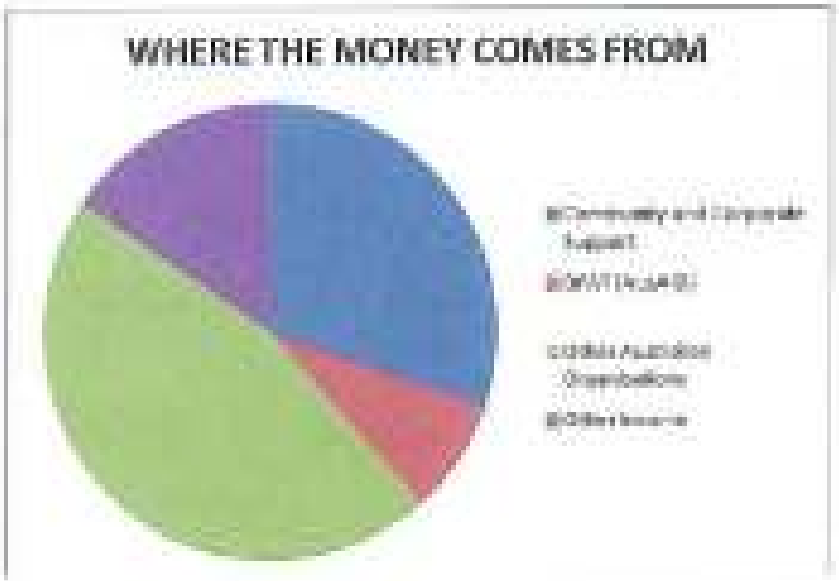
Covers administrative and other costs inherent in running an organisation, including staff time in the areas such as finance, program coordination and administration, insurance premiums, office supplies, consultancy fees and other running costs. It includes coordinating all aid programs and management of volunteer's travel and on-site engagement.

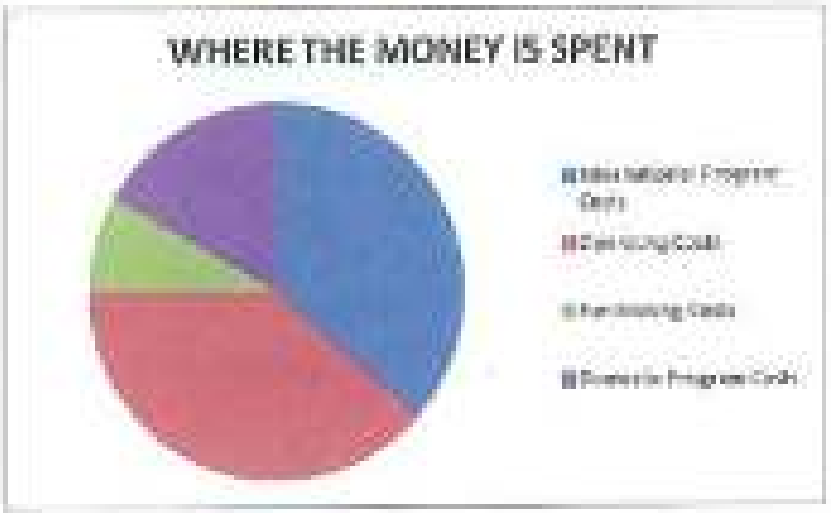
Fundraising Costs

Costs associated with events and fundraising.

Domestic Program Costs

Costs associated with the coordination of projects in Australia.





FINANCIAL OVERVIEW

VALUE OF VOLUNTEER SERVICES

The value of volunteer services is not included in the accounts. However the following information has been prepared in accordance with the rates approved by DFAT.

Volunteers for the year ended 30 June 2015	
42 ophthalmologists for a total of 303 days - Executive Level 2	$164,577.44
Total Value of Volunteer Services	$164,577.44

THE REAL VALUE IS PRICELESS...	TOTALS
COSTS	
Volunteer Services*	$1,330,000.00
International Program Costs	$210,000.00
Operating Costs	$232,157.00
Fundraising Costs	$49,984.03
Domestic Program Costs	$180,458.00
TOTAL	$2,101,699.03

*Volunteer Services

The value of volunteer services based on rates determined by the Department of Foreign Affairs and Trade (DFAT) is a significant underestimation given the highly specialised nature of our volunteers. The above figure represents a more realistic although still conservative value based on public sector rates.

DIRECTORS' REPORT
FOR THE FINANCIAL YEAR ENDED 30 JUNE 2015

The Directors of Sight For All Limited (SFA) present their report, together with the financial statements, for the company for the financial year ended 30 June 2015.

Directors

The following persons were directors of the company during the whole of the financial year and up to the date of this report, unless otherwise stated:

Dr Jeremy Muecke AM	Chair
Ms Sally Fegan	Vice Chair
Mr Phil Jeavons	Treasurer
Mr Gavin O'Callaghan	
Mr Michael Pattison	
Mrs Melissa Fawcett	
Professor Bob Casson	
Dr Nidi Arshee	Appointed 29 October 2014

Principal Activity

The principal activity of the company for the financial year was to eliminate avoidable blindness in collaboration with partner communities.

Short & Long Term Objectives

Our short and long term objectives are directed at funding and delivering programs which have a tangible impact on avoidable blindness in our partner countries and Australian communities. This includes:

Ophthalmology Research
- Adult blindness studies
- Childhood blindness and refractive error studies
- Studies to investigate the genetics of blinding disease
- Studies to explore the outcomes of eye surgeries
- Studies to determine the impact of eye health awareness initiatives

Infrastructure Support
- Implement and facilitate upgrades of existing and regional eye centres
- Establishment of sub-specialty units, eg glaucoma, ophthalmic plastic surgery, paediatric ophthalmology, retina

Knowledge Enhancing
- Workshops and mentoring development for ophthalmologists
- Continued education, leadership and train the trainer workshops for graduate ophthalmologists
- Scholarships based on sub-specialty fellowships in both Australia and in partner countries (overseas fellowships)
- Workshops to train optometrists in the fitting of contact lenses

Eye Health Awareness
- Cataract and diabetic eye disease awareness campaigns
- Vision screening to identify refractive errors and blinding diseases in schools/children

SIGHT FOR ALL LIMITED
ABN 82 137 881 183
as trustee for
SIGHT FOR ALL FOUNDATION FUND
ABN 83 564 555 481

DIRECTORS' REPORT (continued)

In the longer term our strategic activities are:

- To determine the magnitude and causes of blindness in partner communities in order to prioritise eye health projects

- To ensure eye care professionals have the necessary knowledge, skills and equipment and their communities have the necessary awareness, so that avoidable problems of blindness can be addressed

Strategy for achieving the objectives

- Eye care professionals lead the organisation and coordinate all projects
- Sight For All responds directly to requests from partner countries and communities in need, ensuring that the issues at hand are addressed effectively
- Deliver duty of care programs for our stakeholders that ensure strong engagement and positive outcomes for our employees, volunteers, fellows and partners
- Strengthen relationships to ensure Sight For All continues to have a significant impact in the delivery of eye care programs in Australia and partner countries
- Create a sustainable model that allows Sight For All to be financially viable in the long term

Principal activities

During the financial year the principal continuing activities of the company consisted of:

- Sourcing equipment to establish the second ventilation unit in Myanmar and a pediatric unit in Bangladesh
- Construction of in-country fellowship training programs in Cambodia, Laos and Vietnam
- Completion of the first combined lens training program in Vietnam
- Fellowships in Australia for a retina-retina optometrist/ophthalmologist from Myanmar
- In-Country Collaborative Fellowships (ICFA trained fellow Dr Aung Lin Ong (left) with fellow Dr Thant)
- Conducting a childhood blindness study in Laos
- Production of Aboriginal Eye Health awareness video to raise awareness of diabetic eye disease
- Hosting the Very Slow Lung Lunch
- Hosting Films for Sight events (Adelaide, showcasing short films created for Sight For All)
- Engagement of over 130 eye care professionals in Australia and New Zealand who volunteer their time, knowledge and expertise
- Improved governance through ongoing development of operational systems and development of policies and procedures
- Sponsored employment of full time Executive Director, Kathleen Gutteridge, Public Health Resource Fellow (Doctor)
- Continued preparation for applying for DGR1 accreditation
- High level of satisfaction of volunteers and visiteeship
- Membership of the Vision 2020 Global Consortium
- Establishment of new committees - Program Management Committee and Finance Committee
- Project management focus

Performance measures

- Research projects completed
- In-country fellowships undertaken successfully
- Fellows trained in Australia returned to their home country to manage patients
- Sub-specialty cataract/retinal/oculoplastic equipment and materials in partner countries
- New finance system operational
- Satisfied volunteers and visiteeships
- Finance Committee established
- Program Management Committee established
- Staff employed and performance measures in place

DIRECTORS' REPORT (continued)

Information on Directors

Name:	Dr Jovin Maung Aung
Title:	Director
Qualifications:	MBBS(Hons), FRANZCO
Experience and expertise:	Dr Aung graduated with Honours from the University of Adelaide Medical School in 1987. Following the internship at the Royal Adelaide Hospital in 1988, Dr Maung worked as a Resident Medical Officer at Turbo Tumo Hospital in Kenya. He was awarded an ANAO Travelling Scholarship for the highest score in the Royal Australian and New Zealand College of Ophthalmologists (RANZCO) Part I examination in 1991. He worked as a general ophthalmologist in Adelaide from 1992 to 1994, and was awarded a Fellowship to work at St. John Ophthalmic Hospital in Jerusalem in 1995. During his year in Jerusalem, he travelled to villages and refugee camps in the West Bank and Gaza strips to conduct weekly outreach eye clinics. Dr Maung undertook subspecialty training in oculoplastic surgery at Scarborough District Hospital in England with Mr Tony Tyers in 1995 and in ocular oncology at Moorfields and St Bartholomew's Hospitals with Mr John Hungerford in London in 1997-98. He returned to Adelaide in July 1998 to take up positions as a Visiting Ophthalmologist and the Director of the Ocular Oncology Unit, in the Departments of Ophthalmology at the Royal Adelaide and Women's and Children's Hospitals. Dr Maung has a strong interest in ocular oncology and ophthalmic development and has been overseas in the developing world. He was the Director of the Vision Myanmar Program (VMP) of the South Australian Institute of Ophthalmology and has been actively involved in surgical teaching, epidemiological surveys, public health campaigns, infrastructure development and blindness prevention in Myanmar since 2000. He is an author and co-author of numerous publications generated from surveys and epidemiological studies in Myanmar. He is the author, photographer and publisher of "Visions of Myanmar", a fund-raising coffee table book that raised over $130,000 for the VMP. Dr Maung has also been involved in blindness prevention activities in Bangladesh, Bhutan, Cambodia, Indonesia, Laos, Nepal, Sri Lanka and Vietnam. He is the founding chairman of "Sight For All Foundation", a not-for-profit organisation committed to fighting blindness in the developing world (www.sightforall.org).
Awards:	• Ernst & Young Entrepreneur of the Year (General Division, Social Category) July 2015 • Finalist Pride of Australia Medal 2014 • President's Leadership Award for blindness prevention in developing countries - Australian Medical Association, May 2013 • Public Health and Well-being Award for service to Aboriginal and health in South Australia, November 2012. • Member of the Order of Australia for the provision of eye health services to Asian and Australian Aboriginal communities, June 2012. • Outstanding Service in the Prevention of Blindness Award - Asia Pacific Academy of Ophthalmology, March 2011. • Finalist, South Australian of the Year, 2010.

DIRECTORS' REPORT (continued)

Name:	Mr Michael Fotheringham
Title:	Director
Qualifications:	Masters of Insurance Law
	Masters of Business Administration
	Bachelor of Laws
	Bachelor of Economics
	Graduate of Diploma of Legal Practice
Experience and expertise:	Michael has practised as a solicitor since 1986. He specialises in professional indemnity, directors and officer's liability, public liability, product liability, insurance, special risk and business interruption claims.
	Michael has presented as a member of in-house and industry seminars in both insurance law and debt recovery. Michael also coordinates a number of insurance articles for well known publications including the Insurance Law Journal.
	Michael is a former board member of ALA (SA Chapter) and current Director of Right For All. Sight For All is a voluntary organisation of Australian optometrists who give their time and expertise voluntarily with the aim of strengthening the capacity of ophthalmologists, ancillary staff and health workers in the developing world to deliver affordable, high quality and sustainable eye and vision health care.
	Michael also does pro bono work for Variety (SA).
	Finally Michael is the Chairman of the Australian Motorcycle Drag Racing Association. This is on a voluntary capability.
Special Responsibility:	Sight For All Director

Name:	Mrs Melissa Everett
Title:	Director
Qualifications:	Bachelor of Business University of South Australia (formerly SA Institute of Technology) – major in Marketing

DIRECTORS' REPORT (continued)

Experience and expertise:

Melissa has over 10 years experience in marketing, planning and management working for many well-known brands such as Bathurst, Bedford, Sailcat, Packing Pharmaceuticals, SAPS and George Weston Foods.

The last five years have been spent consulting to a variety of organisations. With her years of experience, Melissa brings clarity to marketing decision-making. Her advice in both strategic and programs with the main aim of increasing clients overall business performance.

Melissa's skills set includes the ability to work well in a team environment and to provide structure to the planning process. She brings focus and ideas to the marketing process and spends time understanding the issues organisations face when developing plans. Her strength is her ability to get things done and plans are always well-structured and executable.

As both a marketing manager and consultant, she has gained a very supportive network of people in the industry and believes her pragmatic and insightful approach has enabled her to keep clients for many years.

Social Responsibility: Chair Sight For All Marketing Committee
Sight For All Director

Name: Professor Bob Casson
Title: Director
Qualifications: MBBS (Hons), MBA (Hons), DPHILPHAMED

Experience and expertise: Professor and Head of Discipline of Ophthalmology at Adelaide University.

Ophthalmic clinician-scientist with expertise in clinical practice, developing world epidemiology and laboratory-based research.

Social Responsibility: Chief Scientific Advisor

Name: Dr Nick Andrew
Title: Director
Qualifications: MBBS

Experience and expertise: Nick graduated from the University of Adelaide medical school in 2010 and commenced opthalmology training in South Australia in 2014. He is currently completing his PhD in orbital inflammatory disease and has over 20 publications in peer-reviewed medical journals. During medical school Nick represented Australia in rowing on three occasions and was captain of the U23 Australian Rowing Team in 2007.

Corporate Social Responsibility: Nick became involved with Sight For All several years ago when he served as a research assistant in Myanmar on two occasions. His primary role was in collecting cataract surgical data following the donation of equipment and training by Sight For All. While a member of the Australian Rowing Team, Nick helped to raise awareness for the Cancer Council, the Julian Burton Burns Trust, and he also visited schools to raise awareness about the importance of physical activity.

Meetings of directors

The number of meetings of the company's Board of Directors held during the year ended 30 June 2018, and the number of meetings attended by each director were:

	Number of Meetings Attended	Number of Meetings Eligible to Attend
Dr James Muecke AM	5	5
Sue Tayar	5	5
Phil Jagelman	5	5
Dr Garth O'Callaghan	5	5
Michael Pickersgill	4	5
Melissa Conrad	5	5
Professor Bob Casson	4	5
Dr Nick Andrew	5	5

Held: represents the number of meetings held during the time the director held office.

Contributions on winding up

The company is incorporated under the Corporations Act 2001 and is a company limited by guarantee. If the company is wound up, the constitution states that each member is required to contribute a maximum of $1 each toward meeting any outstanding obligations of the company.

As at 30 June 2018 the total amount that the members of the company are liable to contribute if the entity is wound up is $1 (2017: $1).

Rounding of amounts

The company is of a kind referred to in Class Order 98/100, issued by the Australian Securities and Investments Commission, relating to the 'rounding off' of amounts in the directors' report. Amounts in the directors' report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, to the nearest dollar.

Auditor's independence declaration

A copy of the lead auditor's independence declaration as required under section 307C of the Corporations Act 2001 follows.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors

Dr James Muecke AM
Chair

SIGHT FOR ALL FOUNDATION FUND
ABN 99 094 696 401

Notes to the financial statements for the financial year ended 30 June 2015

Note 1. Corporate Information
The financial statements of Sight for All Limited as trustee for Sight for All Foundation Fund for the year ended 30 June 2015 were authorised for issue in accordance with a resolution of Directors on 27 August 2015.

Sight for All Limited, as trustee for Sight of all Foundation Fund, is a not-for-profit company limited by guarantee. The registered office is C/- South Australian Institute of Ophthalmology, Level 8 East Wing, Royal Adelaide Hospital, North Terrace, Adelaide 5000.

Note 2. Significant accounting policies
The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New, revised or amending Accounting Standards and Interpretations adopted
The company has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Any significant impact on the accounting policies of the company from the adoption of these Accounting Standards and Interpretations are disclosed in the relevant accounting policy.

The adoption of these Accounting Standards and Interpretations did not have any impact on the financial performance or position of the company. The following Accounting Standards and Interpretations are most relevant to the company:

AASB 1053 Application of Tiers of Australian Accounting Standards

The company has adopted AASB 1053 from 1 July 2013. AASB 1053 establishes a differential financial reporting framework consisting of two tiers of reporting requirements for general purpose financial statements, comprising Tier 1: Australian Accounting Standards and Tier 2: Australian Accounting Standards – Reduced Disclosure Requirements (RDR). AASB 2010-2 makes amendments to each Standard and Interpretation including the disclosures not required to be made by Tier 2 entities or inserting RDR paragraphs requiring simplified disclosures for Tier 2 entities. The adoption of these standards has resulted in significantly reduced disclosures, largely in respect of income tax, segments, impairment, related parties, share-based payments, financial instruments and cash flows.

SIGHT FOR ALL LIMITED
ABN 82 137 661 193
as trustee for
SIGHT FOR ALL FOUNDATION FUND
ABN 69 994 586 401

Notes to the financial statements for the financial year ended 30 June 2015 (continued)

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards - Reduced Disclosure Requirements and Interpretations issued by the Australian Accounting Standards Board (AASB), *Australian Charities and Not-for-profits Commission Act 2012*, the *Australian Charities and Not-for-profits Commission Regulation 2013* and the *Corporations Act 2001*.

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of available-for-sale financial assets, financial assets and liabilities at fair value through profit or loss, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

Revenue recognition

Revenue is recognised when it is probable that the economic benefit will flow to the company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Grant revenue is recognised in the statement of comprehensive income when the entity obtains control of the grant and it is probable that the economic benefits gained from the grant will flow to the entity and the amount of the grant can be measured reliably.

If conditions are attached to the grant which must be satisfied before it is eligible to receive the contribution, the recognition of the grant as revenue will be deferred until those conditions are satisfied.

When grant revenue is received whereby the entity incurs an obligation to deliver economic value directly back to the contributor, this is considered a reciprocal transaction and the grant revenue is recognised in the statement of financial position as a liability until the service has been delivered to the contributor, otherwise the grant is recognised as income on receipt.

Sight for All Limited receives non-reciprocal contributions of assets from parties for a zero or a nominal value. These assets are recognised at fair value on the date of acquisition in the statement of financial position, with a corresponding amount of income recognised in the statement of comprehensive income.

Donations and bequests are recognised when received.

Notes to the financial statements for the financial year ended 30 June 2015 (continued)

Revenue recognition (continued)
Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue is recognised when it is received or when the right to receive payment is established.

Income tax
As the company is a not-for-profit organisation it has been granted exemption from the Commissioner of Taxation for payment of income tax.

Cash and cash equivalents
Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables
Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment.

Other receivables are recognised at amortised cost, less any provision for impairment.

Property, plant and equipment
Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

The Board has determined that it will only capitalise assets that have a cost greater than $1,000 for the purposes of depreciation. Any asset that costs less than $1,000 will be written off and expensed in the Statement of Comprehensive Income.

Leasehold improvements and plant and equipment under lease are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the company. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

Trade and other payables
These amounts represent liabilities for goods and services provided to the company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Borrowings
Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

Where there is an unconditional right to defer settlement of the liability for at least 12 months after the reporting date, the loans or borrowings are classified as non-current.

Employee benefits
A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities recognised in respect of short-term employee benefits, are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Liabilities recognised in respect of long term employee benefits are measured as the present value of the estimated future cash outflows to be made by the Group in respect of services provided by Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Note 3. Critical accounting judgements, estimates and assumptions
The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(Increase)/decrease in Trade and Other receivables	(16,795)	276,259
(Increase)/decrease in Other Current assets	(26,581)	-
Increase/(decrease) in Payables	(1,798)	33,780
Increase/(decrease) in Employee Benefits	810	4,483
Increase/(decrease) in Other Current Liabilities	(7,728)	361,834
Prior period adjustment	-	(478,073)
	(334)	120,596

Notes to the financial statements for the financial year ended 30 June 2015 (continued)

Note 10. Financial Risk Management

(a) Overview

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Company's exposure on each of the above risks, its objectives and policies and processes for measuring and managing risk. Further quantitative disclosures are included throughout this financial report.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework.

Risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

(b) Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from operating activities and investments.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Geographically there is no concentration of credit risk.

Investments

The Company limits its exposure to credit risk by only investing in liquid securities and only with counterparties that have a credit rating equal to or better than the Company.

Exposure to credit risk

The carrying amount of the Company's financial assets represents the maximum credit exposure. The Company's maximum exposure for credit risk at the reporting date was:

	Note	2015	2014
		$	$
Cash and cash equivalents	5	995,713	504,427
Trade and other receivables		44,436	1,760

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meets its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

(d) Market Risk

Market risk is the risk that changes in market prices, such as interest rates, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Notes to the financial statements for the financial year ended 30 June 2015 (continued)

(d) Market Risk (continued)

All investment transactions are carried out within the guidelines of the Company's Investment Policy.

The Company's exposure to market interest rate relates primarily to its holdings of cash and cash equivalents and its borrowings.

At balance date the Company had the following financial assets exposed to Australian variable interest rate risk that are not designated in cash flow hedges:

	2015 $	2014 $
Financial assets		
Cash on hand	100	100
Cash at bank	593,613	594,327
	593,713	594,427
Financial Liabilities	-	-
Net Exposure	593,713	594,427

The following table illustrates the sensitivity of the net result for the year to a reasonably possible change in interest rate of +/- 1% with effect from the beginning of the year. These changes are considered to be reasonably possible based on observation of current market conditions.

	+1% $	-1% $
Cash at bank	5,937	(5,937)

Note 11. Related party transactions

Transactions with related parties
Transactions between related parties are on normal commercial terms and conditions no more favourable than to those available to other persons unless otherwise stated.

Receivable from and payable to related parties
There were no trade receivables from or trade payables to related parties at the reporting date.

Loans to/from related parties
There were no loans to or from related parties at the reporting date.

Note 12. Auditors' Remuneration	2015	2014
Audit of the company	3,100	3,000

Note 13. Subsequent Events

No matter or circumstance has arisen since 30 June 2015 that has significantly affected, or may significantly affect the company's operations, the results of those operations, or the company's state of affairs in future financial years.

Notes to the financial statements for the financial year ended 30 June 2015 (continued)

Note 14: Prior Period Adjustment
An adjustment was made in the financial year ended 30 June 2014 to reflect accrual accounting based treatment of Project Revenue to achieve alignment of revenue recognition and program activity and delivery.

Note 15: Entity Details
The registered office of the entity is:
Level 8
East Wing Royal Adelaide Hospital
North Terrace
Adelaide SA 5000

Note 16: Member's Guarantee

The entity is incorporated under the Corporations Act 2001 and is an entity limited by guarantee. If the entity is wound up, the constitution states that each member is required to contribute a maximum of $1 each towards meeting any outstanding obligations of the entity. As at 30 June the number of members was 2.

Directors' declaration

In the directors' opinion:

- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

- the attached financial statements and notes thereto comply with the Corporations Act 2001, the Australian Accounting Standards - Reduced Disclosure Requirements, and satisfy the requirements of the Australian Charities and Not-for-profits Commission Act 2012.

- the attached financial statements and notes thereto give a true and fair view of the company's financial position as at 30 June 2018 and of its performance for the financial year ended on that date; and

Signed in accordance with a resolution of directors made pursuant to section 295(5) of the Corporations Act 2001 and with subsection 60.15(2) of the Australian Charities and Not-for-profits Commission Regulation 2013.

On behalf of the directors

Dr Jonas Akande AM
Chair

Mr Phil Jaquillard

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SIGHT FOR ALL LIMITED AS TRUSTEE FOR THE SIGHT FOR ALL FOUNDATION FUND

We have audited the accompanying financial report, being a special purpose financial report, of Sight For All Limited as trustee for the Sight For All Foundation Fund, which comprises the statement of financial position as at 30 June 2015, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' Responsibility for the Financial Report
The directors of the company are responsible for the preparation and fair presentation of the financial report and have determined that the accounting policies described in Note 1 to the financial statements, which form part of the financial report, are appropriate to meet the requirements of the *Corporations Act 2001* and are appropriate to meet the needs of the members. The directors' responsibility also includes establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility
Our responsibility is to express an opinion on the financial report based on our audit. No opinion is expressed as to whether the accounting policies used, as described in Note 1, are appropriate to meet the needs of the members. We conducted our audit in accordance with *Australian Auditing Standards*. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

The financial report has been prepared for distribution to members for the purpose of fulfilling the directors' financial reporting under the Corporations Act 2001. We disclaim any assumption of responsibility for any reliance on this report or on the financial report to which it relates to any person other than the members, or for any purpose other than that for which it was prepared.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence
In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001. We confirm that the independence declaration required by the Corporations Act 2001, provided to the directors of Sight For All Limited as trustee for the Sight For All Foundation Fund would be in the same terms if provided to the directors as at the date of this auditor's report.

Qualification
As is common for this type of organisation, it is not practicable for the company to maintain an effective system of internal control over donations and other fundraising activities and their initial entry in the accounting records. Accordingly, the audit in relation to fundraising was limited to amounts recorded.

Qualified Auditor's Opinion
In our opinion, except for the matter referred to in the qualification paragraph, the financial report of Sight For All Limited as trustee for the Sight For All Foundation Fund is in accordance with the Corporations Act 2001, including:

a) giving a true and fair view of the company's financial position as at 30 June 2016 and of its performance for the year ended on that date; and

b) complying with Australian Accounting Standards.

Basis of Accounting
Without qualifying our opinion, we draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the directors' financial reporting responsibilities under the Corporations Act 2001. As a result, the financial report may not be suitable for another purpose.
